

FRANCO-AMERICAN TROOPS CONTINUE THEIR ADVANCE SOUTH OF OURcq RIVER

Cross Soissons-Chateau Thierry Road — Allies Occupy Towns of Bezn, Epieds and Chateves.

BULLETIN
WASHINGTON, July 22.—Franco-American troops continuing their advance south of the Ourcq river crossed the Soissons-Chateau Thierry road between the Ourcq and the Clignon Sunday night. General Pershing reported in today's communique.

The towns of Bezn, Epieds and Chateves have been occupied by the allied troops, American troops also have crossed the Marne and occupied towns on the north bank which the communique says had been hastily evacuated by the Germans.

BULLETIN
WITH THE AMERICAN ARMY ON THE AISNE-MARNE FRONT, July 22.—Two additional towns have been taken by the Americans on the front north of the Marne since daylight this morning. In the region of Soissons another town was captured by the Americans.

BULLETIN
WITH THE AMERICAN ARMY ON THE AISNE-MARNE FRONT July 22.—By the Associated Press.—The Franco-American advance continued this morning on the line south and to the west. The Germans gave more ground and are slowly continuing their backward movement to the north of Chateau Thierry.

BULLETIN
WITH THE AMERICAN ARMY ON THE AISNE-MARNE FRONT, July 22.—By the Associated Press.—The Germans are clinging desperately to the line south of Soissons in an effort to protect their flanks. The Americans fighting on this front, have completed the cutting of the narrow gauge railway to Chateau Thierry.

WITH THE AMERICAN ARMY ON THE AISNE-MARNE FRONT, July 22.—The Germans are having the greatest difficulty in maintaining their communication in the salient. They are unable to utilize most of the railroads leading northward owing to the incessant harrowing from entente allied aviators and artillery. The night was comparatively calm but several local counter-attacks were executed by the Germans in an endeavor to cover the retreat of their main body. These attacks in every instance were unsuccessful.

Two additional towns have been taken by the Americans on the front north of the Marne since daylight this morning. In the region of Soissons another town was captured by the Americans.

In the Soissons sector still another town has fallen into the hands of the French, improving the allied position and likewise covering the enemy's line of communication. The enemy is increasing his resistance along the line south from Soissons where every yard which the allies pushed forward further hampers the German lines of supply. On the front where the Franco-American forces are pushing in just to the north of the Marne the enemy is carrying out sullen rear guard actions and despite these the allies continue their gains. The Germans left numbers of machine gun nests in the path of the allied progress and are using their artillery likewise in guarding the slow retreat. On the whole, the concentrated forces of the crown prince have materially slowed down the allied progress. There is no indication however, that the enemy will be able to counter-attack successfully.

Additional prisoners were taken in today's fighting.

Indians Display Cunning.
With the American Army on the Aisne-Marne Front, July 22.—By the Associated Press.—American Indians in France quickly adjusted themselves to conditions. They soon became as cunning as in their native western haunts. This is illustrated by an incident which occurred when the Germans were withdrawing across the Marne. Indian scouts, with Americans, were sent over the river to ascertain German movements and other details.

At one crossing three Indians improvised a raft and chained it to the north side of the Marne. They hid the raft and then started on an exploring expedition. The Germans discovered the strange footprints on the river bank and came upon the raft. They awaited the Indians' return but after reconnoitering, the Indians approached their hidden raft cautiously and, scenting trouble, made a hasty retreat.

The Germans realized that these strange red men were not of their kind and must therefore be an enemy and began firing. The Indians ran thru the woods like deer and finally struck for the water in an endeavor to reach the south side. These Indians, reared along the rivers, swim like Hawaiians and are able to remain below the surface for a long time. The Germans saw splashes in the water and began firing. The Indians dived and swam down stream under water. When they came to the surface for air they brought up a handful of clay and with it they camouflaged their faces and hands, while on the surface for a brief breathing spell. Finally the Indians reached the south bank far below the Germans, the current assisting them materially. Then they crawled back and peered thru the bushes and watched the Germans seeking the bronzed figures, who apparently had been drowned. The Germans, thoroughly angered, shot the raft to pieces.

Secretary Baker's Statement.
Washington, July 22.—The German high command apparently is making desperate efforts to hold open the base of the salient between Soissons and Rheims until troops far down the center of

STATEMENTS

Official Communications Issued By Belligerent Countries Regarding War Situation.

ROME, July 22.—The official communication issued by the war office today follows:
"In the region of Tonalé, in the Brenta Valley and on the Piave hostile artillery activity was effectively countered by our guns. Enemy working parties were dispersed in the Mont Civale area and motor columns along the Piave. Two hostile machines were downed by us.

VIENNA, July 22.—Via London.—The war office communication issued today says:
"In Albania the enemy's attacks were renewed north of Berat and in the upper Devoli valley three days ago. Excepting local fluctuations the enemy nowhere obtained any advantage in the fighting that is in progress. Between the Semini Bend and the sea reconnoitering detachments penetrated Italian positions at many points."

PARIS, July 22.—Heavy German counter-attacks launched for the purpose of checking the passage of the Allies between the Marne and the Aisne today were without avail according to the war office statement tonight and the French and British made further advances in the region of LaCroix and Grisolles as well as northeast of Mont St. Pere.

The statement says:
"During the course of the day the Germans attempted by powerful counter-attacks to check our progress between the Marne and the Ourcq. The Franco-American troops resisted all these assaults and increased their gains advancing beyond the heights east of LaCroix and Grisolles, taking the village of Epied and gaining ground northeast of Mont St. Pere. Between the Marne and Rheims there was stiff fighting which gained no ground for the enemy. We maintained our lines in the Bois Roi Sector. Further north British troops made an advance capturing 200 prisoners and 40 machine guns.

"North of the Ourcq and on the Champagne front great activity is reported but there was no infantry action."

BERLIN, July 22.—Via London.—The war office claims that the fighting in France on Sunday resulted in a "complete success for the German army."

The official statement issued today describes numerous heavy operations on all parts of the salient between Soissons and Rheims, and declares that all assaults of the Allied forces were repulsed.

The statement reads:
"Between the Aisne and the Marne the battle continues with undiminished vigor. In spite of his heavy defeats on July 20 the enemy bringing into action fresh divisions and tanks which had been newly brought up again advanced to violent attacks against our line. His assaults broke down and prisoners confirmed heavy losses.

"Yesterday's fighting again resulted in a complete success for the German army. Between the Aisne and southwest of Hartennes in the early morning the strongest drum fire preceded enemy infantry attacks. Southwest of Soissons and southwest of Hartennes attacks broke down in front of our lines.

In the evening renewed enemy attacks southwest of Soissons were checked, the starting point. Where they were carried out at all they broke down with heavy losses. On both sides of the Ourcq river in the forenoon the enemy frequently but in vain advanced against our lines. After bringing up fresh forces he renewed the attack in the afternoon. After heavy fighting the enemy's assault on both sides of Oulchy-le-Chateau was defeated by our counter-attacks.

"North and northeast of Chateau Thierry our detachments which had been left in the forefield hindered the approach of the enemy to our new lines. It was not until evening that he succeeded in launching strong attacks which broke, down and with heavy losses to the enemy."

"There has been artillery activity on the Marne front. Between the Marne and the Ardre the British and French continued their attacks, there were sanguinarily repulsed.

"A successful attack has been made on the enemy's lines near the Ancre river."

HELPERS IN C. & A. SHOPS ON STRIKE

BLOOMINGTON, Ill., July 22.—About 300 helpers in various departments of the Chicago & Alton shops struck here today for more pay. Federal Director Bierd met the men and explained that only the railroad administration in Washington had authority to order an increase in pay. This did not satisfy the strikers and they declined to return to work. Another conference will be held tomorrow morning.

MEAT CUTTERS STRIKE

PEORIA, Ill., July 22.—The gradual encroachment of women in their craft, together with shorter hours and more pay, was the cause of strike of meat cutters here today which affected practically all markets. Employers were prepared for the strikers and the places of the strikers were at once filled with women.

War News Summary

News of Activities On Various Battle Fronts in Summarized Form By Associated Press.

The drive of American and French forces into the Soissons-Rheims salient, between Soissons and the region of the Marne continues. The Germans at some points are counter attacking desperately, but their efforts thus far have proved futile in more than impeding the advance.

Further ground has been gained by the allied forces south of Soissons, in the center of the line along the Ourcq river and north and east of Chateau Thierry. Additional large numbers of Germans have been made prisoners and numerous quantities of guns and war materials have been captured. In the Marne region the American troops on the northern bank of the stream are well on the heels of the fleeing enemy east of Chateau Thierry, between Chateves and Gland. At last reports their advance had been virtually four miles from their old positions on the southern bank, and they were pressing the enemy northward in the direction of Tardencot, possibly with the intention of endeavoring to link up with the French forces proceeding eastward along the Ourcq.

Farther east along the Marne the French have been able to throw forces across to the northern bank of the stream.

Severe fighting is in progress between the British, French and Italian troops and the enemy southwest of Rheims, where the British have made a further advance, while in Champagne to the east of Rheims, the French are reported to have regained all their old front line positions between the river Sulpice and the town of Massiges.

The German defensive has noticeably stiffened on the western side of the Rheims-Soissons salient, but also large numbers of reserves have been thrown into the fighting the maneuvers seem to be more in the nature of a strong rear guard action designed to hold the large forces of the enemy in the Chateau-Thierry pocket to escape northeastward than a purpose to stand and give battle with the ultimate aim of holding or beating back the Franco-American troops.

That the Germans now realize

to the full that the allies have the upper hand in the battle seems apparent from reports that they are burning villages behind them in their retreat and destroying large quantities of munitions and war materials thruout the entire salient, which they have found it impossible to move owing to the rapid strides of the allies across various of their lines of communication and the domination of others by the allied big guns. These guns now are throwing shells far behind the lines, searching out the entire countryside, while allied airplanes are harassing the retreating columns with machine gun fire.

The efforts of the Germans to retard the Franco-American forces were particularly heavy Monday in the regions of Grisolles and Bezn-St. Germain, respectively northwest and north of Chateau Thierry and to all the east of Chateau Thierry where the Americans are giving them battle. On all three sectors the enemy lost further ground and his forces in the Chateau Thierry pocket were therefore placed in a greater jeopardy.

Realizing the seriousness of his predicament the German crown prince is said to have sent out distress signals to Crown Prince Rupprecht of Bavaria, whose men are facing the British in France and Flanders, asking for aid. Rupprecht despatched several divisions of his reserves to the south to help his imperial cousin, but to offset this Field Marshal Haig immediately detached an equal number of divisions of picked British troops from Picardy and moved them into the battle area southwest of Rheims.

The latest German official communication asserts that in Sunday's fighting between the Aisne and the Marne complete success rested with the German arms. In France and Flanders the British continued to harass the German lines with snail attacks and raiding operations while the Italians are keeping up their pressure against the Austrians both in the Italian theater and in Albania. In the latter region considerable ground has been gained along the river.

SEIZE LARGE AMOUNT OF SHIP SPECIFICATIONS

WASHINGTON, July 22.—An order issued today by Secretary McAdoo instructing customs collectors to refuse permits to all except government officials for taking ship and ship yard plans out of the country, revealed that the agents of the shipping board recently seized in New York a large amount of valuable specifications on ships clearing for Scandinavian ports.

Military interests of the United States were considered to be jeopardized by the marine documents which were taken from passengers and members of the stevedores crew. The documents are said to have included detailed drawings of American ship yards, photographs of ways, plants and ships, blue prints of American steamships, sailing vessels and mine sweepers and specifications of ships being built for France. Explanation of the attempted sending of the documents abroad has been asked of several builders, in view of the shipping board's announced policy in opposition to the solicitation of after the war orders from neutral countries at this time.

GEN. PERSHING VISITS WOUNDED AMERICANS

PARIS, July 22.—(By the Associated Press).—"Your country is proud of you and I am proud of you. You have fought splendidly."

General Pershing thus addressed wounded American soldiers lying in the American Red Cross hospitals in Paris today. In each ward of every hospital he talked to the men. He inquired if they were being well cared for, how and where they were wounded; what regiments they belonged to; and expressed his sympathy to scores of patients.

General Pershing also talked to the physicians, surgeons and the nurses and thanked them for the work they were doing in caring for the wounded.

UP-TO-DATE UNION.

Chicago, July 22.—George Hardy who said he had served for three years in the British army and had been on the reserve list for nine years, testified today at the trial of 161 of the order, charged with espionage, that I. W. W. was the most up-to-date labor union he had ever seen.

Richard Bazier of Spokane, Wash., a member of the general executive board of the I. W. W. told of petty warfare in the streets of Spokane between city council and labor men who desired to deliver "soap box" orations.

Bazier also identified a letter he wrote to President Wilson in protest against American's entrance into the war.

HEARST TO ENTER RACE FOR N. Y. GOVERNORSHIP

SARATOGA SPRINGS, N. Y., July 22.—William Randolph Hearst intends to enter the primaries for the Democratic nomination for governor no matter who is recommended to the party voters of the state by the unofficial convention which will open here tomorrow according to a statement made tonight by L. J. O'Reilly, long Mr. Hearst's confidential secretary and now commissioner of water supply in New York City.

Hearst's announcement served further to complicate a much involved situation. Another candidate William Church Osborn, one of the seven men recommended by the committee of fifteen at its Syracuse meeting, already has announced that he will go in to the primaries regardless of what the conference does.

Uncertainly concerning the attitude of Colonel Roosevelt toward the Republican gubernatorial nomination, almost anti-upstate antipathy to the William R. Hearst movement and general inability to agree made leaders almost unanimous that more time was required. Accordingly the meeting of the committee of fifteen was postponed until tomorrow morning it was said in order that additional upstate sentiment might be obtained.

With notice of postponement, plans for the convention session tomorrow also were changed. It was announced former Governor Glynn and Representative Lunn, whose friends are still active in his behalf for gubernatorial honors would be speakers.

CONTINUES STORY OF GERMAN INTRIGUE

CHICAGO, July 22.—The story of \$25,000,000 worth of American securities which the German government sought to have turned into money after the outbreak of war with the United States, was told on the witness stand today by Gaston B. Means at the \$3,000,000 King will contest hearing. Means, who had previously testified that he was for many years a financial agent of the German government said that Rudolph Otto, a German agent in New York, sent the securities to him in Chicago by another agent named Schwartz or Witte.

"There was some question about German interests before the United States Attorney General and the matter was held in abeyance and finally allowed to drop," he added.

He also said that the King estate had a claim of \$100,000 from a transaction in rubber with the German government.

U. S. AVIATORS ACTIVE

With the American Army in France, Sunday, July 21.—By the Associated Press.—Two more German airplanes are unofficially reported to have been brought down Saturday by American aviators. One of the enemy machines was brought down by Lieutenant David E. Putnam, of Massachusetts. Lieutenant Baker Brody Freeman engaged in a fight with a German biplane and tumbled him to the ground.

OVERSEAS CASUALTIES

(By The Associated Press)

WASHINGTON, July 22.—The casualty list today shows:
Killed in action, 9; died of wounds, 14; died of disease, 7; died of accident and other causes, 3; wounded severely, 12; missing in action, 16; prisoners, 1; total, 62.

The list:
Killed in Action
Lieutenant Leonard C. Hoskins, East Las Vegas, N. M.
Privates George Kohlmeier, Linn, Kan.
Joseph Maciejewski, Berlin, Wis.

John Nowatny, Wantoma, Wis.
Cecil B. Perry, Dublin, Ga.
Stanley Stubes, Rauette Lake, N. Y.
Patrick J. Sullivan, New York City.
Marvin D. Teague, Gastonia, N. C.

George J. Verkoukas, Pamarion, Greece.

Died of Wounds
Corporal John J. Bergman, Bancroft, Ia.
Herman R. Laughlin, Yamhill, Ore.

Cook George S. Alberts, Brooklyn, N. Y.

Privates Louis F. Beckerle, St. Louis.

Domenick Blotto, Philadelphia.

Herman F. Doering, Sheboygan, Wis.

Eggle Ganski, Chicago.

Joseph E. Hadfield, Bristol, R. I.

Albert S. Rex, Philadelphia.

David Schwartz, New York City.

Died from Other Causes

Privates Paul G. Mente, Heidelberg, Pa.

Byron E. Stone, Shrewsbury, Mass.

Isaac Thomas, New York City.

Ottawa, Ont., July 22.—The following names appear in today's overseas casualties: Died: R. Walters, 3812 Michigan avenue, Chicago.

WILL MAKE RUSSIAN PLANS PUBLIC SOON

WASHINGTON, July 22.—Plans of the United States for participation in the expedition to give military aid to Russia are expected to be announced in a public statement by President Wilson very soon probably before the end of the week.

The statement, it is understood will explain that the United States has only selfish motives, and intends to stand beside Russian people in their fight for a democracy. Sending of economic aid also will be announced, but the personnel of the commission probably not.

Objects of the expedition, as they will be outlined in President Wilson's statement will be to protect American interests, interests of Russian people in their fight for democracy and guarding of vast supplies to be sent to Russia. The president's statement will be the official announcement to the world of decisions which have been referred to in recent news despatches from Tokyo and London. No official announcements have been made before, it is understood because the United States has been awaiting official word from Tokyo of acceptance of its proposals which are understood to differ somewhat from those advanced by Great Britain and France. So far as could be learned no official communications from Japan had arrived today, but they have been forecast in The Associated Press dispatches.

TWO OFFICERS KILLED AT TALIAFERRO FIELD

FORT WORTH, Texas, July 22.—Lieutenant Donald H. Charlton of Sulphur Springs, Ohio, and Lieutenant Ivar Eugene Tinnerholm of Schenectady, N. Y., were instantly killed at Taliaferro field here today when their airplane fell in a spin.

Lieutenant Donald H. Charlton of Sulphur Springs, Ohio, and Lieutenant Ivar Eugene Tinnerholm of Schenectady, N. Y., were instantly killed here this afternoon when their airplane in which they were at gunnery practice, fell in a tail spin. Charlton was a son of Angus B. Charlton of Sulphur Springs, Ohio, and Tinnerholm's mother is August P. Tinnerholm of Schenectady.

WINS DENVER RACE.

Cheyenne, Wyo., July 22.—Clarence Shockey won the Denver Times automobile race over the 112 mile course between Denver and Cheyenne in two hours and four minutes. This two minutes over the record for the annual event. L. F. Heulen was second. His time was two hours and thirteen minutes.

Arthur Sves was third. His time was two hours, thirty minutes.

Manager Griffith of the Washington club announced that his

Struggle Proceeds in All Sections of Line from Soissons to Rheims — Germans Fighting to Save What They Can.

BULLETIN

PARIS, July 22.—Pushing in south of Soissons, the French have crossed the Soissons-Chateau Thierry road north of Villemontoire, opposite Buzancy, the Temps announces today in describing the situation in the Soissons area.

BULLETIN

WITH THE FRENCH ARMY ON THE AISNE-MARNE FRONT, July 22.—By the Associated Press.—There were signs everywhere today that the Germans are destroying the material and munitions in the pocket to the north of the river Marne between Soissons and Rheims, preparatory to the entire evacuation of that area.

BULLETIN

LONDON, July 22.—The French troops in Champagne between the river Suppes and Massiges have regained all their old front line, according to advices reaching London this evening.

BULLETIN

FRENCH ARMY HEADQUARTERS, July 22.—via Ottawa.—North of the Marne the Germans are making preparations for a further retreat.

Following Rapidly On Heels of Enemy

PARIS, July 22.—French troops, says La Liberte, continue to cross the river Marne in strong force northeast of Chateau Thierry. They are following rapidly on the heels of the enemy who cannot long hold ground with General de Mitry's army coming up from the south and General de Goutte's army coming from the west. The latter army already has reached the region of Chatelet wood. General de Goutte's troops which have been fighting hard since the beginning of the counter-offensive last night, crushed the effort made by the Germans and took 1,000 prisoners.

Information received in Paris this morning says that French patrols operating behind Chateau Thierry have learned that the retreat of the Germans extends several miles deep. The German artillery can scarcely be heard, this seemingly indicating that the big guns have been ordered removed to the rear. In their rapid advance north of the river Ourcq French infantry recaptured a battery of French 6-inch guns which the French had abandoned on May 27. Since that time the guns had been used by the Germans. The French immediately put them into action against the enemy as the Germans did not have time to destroy them.

LONDON, July 23.—Hard fighting is proceeding in all sections of the line from Soissons to Rheims, according to despatches reaching London this afternoon, but always with the allies on the offensive and the Germans fighting desperately to save what they can before the onrush.

The French gathered up forty-five more guns, including six of large calibre in the fighting along the Marne where the Germans were compelled to retreat very hastily leaving behind large quantities of material of all kinds. Altho the Germans are fighting bitterly along the bottom of the salient there are indications that they realize that a retreat is inevitable, for they are burning villages several miles behind their lines and there is a great congestion of troops around the top of the salient, which may indicate preparations for a new line. Many compliments have been showered on the Americans by British liaison officers and reports reaching London from their two sectors praise their fighting ability, discipline and adaptability. One staff officer reported:

"The Americans have already earned a great reputation for thoroughness with which they clean up the territory they move across. They are just as good as the Austrians in this open offensive warfare and that is a very high compliment."

The French report the capture of a thousand more prisoners in the past twenty-four hours. The British also have taken several hundred and the Americans a considerable number. On the west side of the salient the fighting continued all night with great intensity as well as this morning with the allies everywhere on the aggressive. At three o'clock this morning east of Rheims the enemy gained a little ground. On the whole front between the river there was a heavy German bombardment and several local attacks were delivered by the enemy but not on a large scale. These were repulsed at all points except at Perthes.

WILL CONSIDER WORK OR FIGHT ORDER

Decision As Affecting Organized Baseball Will Be Rendered After Meeting.

Washington, July 22.—Provost Marshal General Crowder gave a hearing today to representatives of the Washington American League club preparatory to making a report to Secretary Baker with recommendations as to whether the secretary's order making the new regulations immediate applicable to the players should be modified so as not to interfere with this year's schedule of professional leagues.

Representative Nicholas Longworth of Ohio appeared on behalf of August Herrmann, chairman of the national commission, and asked that the decision be postponed so the commission could formally present its case. General Crowder said he was prepared to make his recommendations but would postpone further action until Wednesday if the representatives of the Washington club present agreed.

They did and the matter went over.

Manager Griffith of the Washington club announced that his

team would leave for St. Louis as to play the game scheduled for Thursday unless President Johnson directs otherwise or arrange a game nearer Washington so as to save travelling expenses if the decision of the secretary is unfavorable.

DESTROYER SINKS U-BOAT

London, July 22.—The British destroyer Marne has sunk a German submarine, says an official statement issued today by the British admiralty.

WEATHER.

ILLINOIS: Partly cloudy and unsettled Tuesday, probably local thunder showers and cooler extreme north; Wednesday generally fair.

The current maximum and minimum temperatures as recorded Monday were:

Jacksonville, Ill.: 79 95
Boston: 86 92
Buffalo: 82 94
New York: 88 94
New Orleans: 82 92
Chicago: 81 83
Detroit: 78 82
Omaha: 80 90
Minneapolis: 76 76
Helena: 80 80
San Francisco: 62 66
Winnipeg: 74 74
Jacksonville, Fla.: 88 90

CITY AND COUNTY

Mrs. Georgie E. Nalle has returned home to Chicago, after visiting friends and relatives in the city.

Mr. and Mrs. W. W. Robinson, who have been visiting friends and relatives in the city for a few days, have gone to Kansas City for a visit with Mrs. Minnie Lord, a sister of Mrs. Robinson, before returning to their home at Colorado Springs.

Mr. and Mrs. H. Clay Latham, Miss Clara Notorman and Miss Ida Trull, of Hillsboro, composed a motor party to the city Sunday.

H. C. Gibbs, of Decatur, was attending to business matters in the city yesterday.

J. G. West, of Winchester, was transacting business in the city yesterday.

Lieutenant Harold A. McGinnis, of the aviation section, located at Scott Field, Belleville, spent Sunday in the city visiting friends.

WHEN YOU LUNCH OR DINE

Stomach and Bowels Out of Order?

It's summer weather, that's all. Your system has not accustomed itself to the higher temperature, and the accompanying change in food and personal habits.

Foods are more apt to be slightly tainted, too. You are possibly eating more fruit than ordinarily—your system must bear the strain of assimilating more acid.

All of these causes induce colic, cholera and a mild form of dysentery.

COLIC, CHOLERA and DIARRHOEA COMPOUND BLACKBERRY CORDIAL AND REXALL QUICK RELIEF

These preparations are especially prepared to relieve summer bowel complaints, and we can highly recommend them. If you are interested come in and we will be glad to explain the formula and purposes of any of them.

If you feel that you are suffering from any form of these ailments, do not delay, it might easily grow more serious.

DURBIN

Born, to Mr. and Mrs. Richard Oxy, Monday, July 15th, a daughter, fourth child.

Mrs. Tillie Davis, Mrs. Joseph Blanchard and daughter, Marion, of Evanston, are guests of Mr. and Mrs. David Rawlings.

J. W. Grant, of East Liverpool, Ohio, has come to superintend building the new church.

Mr. and Mrs. Ira Scott and Mrs. Henley, of Springfield, spent part of last week at Scott Haven, of Evanston, and John Goodman, of Jacksonville, are visiting at the Sheppard home.

Mr. and Mrs. Walter Ellington, of Springfield, and Mr. and Mrs. J. A. Walters, of Jacksonville, were Sunday guests at Clearview Farm.

A missionary program will be given at Durbin school house next Sunday evening.

ASBURY

Rev. and Mrs. W. W. Theobald and Miss Esther Myers, of Jacksonville; Mrs. George Megginson and son, Charles William, of Woodson; Mrs. Charles Taylor, Mrs. Vertress Bliming, Mrs. George Hembrough and daughter, Marie, Mr. and Mrs. A. B. Green, Misses Iva Green and Mae Ober, attended the Asbury dinner, given at the home of Mrs. Hannah Hembrough Thursday.

Mr. and Mrs. Albert Jackson, son Robert and daughter Ola, of Franklin; Mrs. Chester Colton and son, of Woodson; Mrs. Julia Mansfield, of Jacksonville, spent Sunday with Mr. and Mrs. R. Y. Gibson.

Mr. and Mrs. George Megginson, R. W. Megginson and Mr. and Mrs. George Hembrough motored to Sinclair Sunday in Mr. Megginson's Hudson car, to spend the day with Mr. and Mrs. Charlie Bealmer.

Opal Blair came to my tent the other night. He has not been able to do drilling as his feet are flat and weak. He has had to stay in his company street most all the time. I am going to see Paul when I get through writing. On Tuesday I got no mail, and then I got your letter and three from E. B.

I must close now as I hear music in every direction. I won't be home but hope I will be able to soon after and several of them. I hope to hear from you soon.

Private John P. Daly, Co. A, 139 M. G. B. M. Camp Shelby, Miss.

CHAPIN

Mr. and Mrs. Earl Fountain spent yesterday in Beardsdown, the guests of Mr. and Mrs. T. R. Autrobus.

Mr. and Mrs. Clyde McAllister and Mr. and Mrs. Arthur Burries, of Meredosia, motored to Chapin yesterday.

Dr. Prince, of Springfield, was very busy in our town Sunday. Having seven patients for the removal of tonsils.

Mr. and Mrs. C. F. Duckett and family and Mr. and Mrs. John Giffin motored to Beardsdown yesterday, the guests of Mr. and Mrs. Nergenh.

Dean Artrobus, who has been working for Swift & Co., of Jacksonville, for the past two months, will leave next week for Rock Island. He will travel for the same company, but with headquarters at Rock Island.

MORGAN

Miss Kyle, R. N., of Jacksonville, is spending a few days with Mrs. T. H. Stone.

Mrs. Elmira Henry, of Jacksonville, spent a few days last week with Mrs. M. V. Hutchens.

Charles H. Taylor and wife, Mr. and Mrs. Clyde Williams and family were visitors at Meredosia last Saturday.

"Shepherd of the Hills" was enjoyed by a few of our young people at Winchester last Friday night.

Mrs. Ada Funk, of Chapin, spent last Monday at the home of her sister, Mrs. C. E. Williams, to assist Mrs. Clyde Williams in preparing the dinner for the threshers.

Mr. George H. Carlson shipped a car load of hogs to St. Louis this week.

Quite a number from here attended the show in Jacksonville last Wednesday.

Irvin Coulson has a fine mare in a serious condition with lock jaw, caused from a snag on his hip. After corn plowing was done he turned her out in a timbered pasture and in some way she ran the snag into her hip. We hope to hear of a speedy recovery.

Mr. and Mrs. Clyde Williams and family spent Tuesday with Wilbur Williams and family, near Markham.

Mr. and Mrs. Harry Onken, formerly of Chapin, now at Louisville, Ky., entertained twenty-three of the boys at Chapin and vicinity, who went to Camp Taylor June 28th, at a six o'clock dinner. The boys that attended write home how they enjoyed the good eats, which was of a variety and an abundance, and how much they appreciated the hospitality of Mr. and Mrs. Onken, both at their home and the pleasure of going with them to a show. Harry was among the first man from Chapin called to the colors.

All the Jacksonville boys are with me. We had some new barracks built and all moved together. We have sure got an ideal home now, but will have to leave it soon. Say, did you get to see the photograph of us boys that was made by the opera house that morning we left? They were all happy, or looked to be. We have got one of them down here in our

"With the Colors"

Letters of Interest from Jacksonville Boys in the Country's Service.

Writes from Southern Camp
The following letter was written to Morgan county relatives by John P. Daly, who is now in training at Camp Shelby, Miss.:

Camp Shelby, July 17, 1918.
Dear Mother:

How are all at home now? I am fine today. Have just had an inspection Sunday at 10 a. m. I washed my face and hair at 6:30 until 8:30, then took a bath.

We have a three gallon bucket to put our clothes in to soak, then spread them on a table three feet wide and 20 feet long and rub soap on them and wash them with a brush. We have to buy our own buckets and brush. We hang our clothes on a nail that is driven in the side of the tent, or a rope that is stretched from tent to tent.

Had to get up at 4 a. m. and eat breakfast, clean mess kit and cup, clean and polish shoes and shave and clean up for inspection. Am free until Monday morning except we have to be here at retreat at 6 a. m. I could probably get a pass for 24 hours but I really don't want to. I really don't intend to leave my company unless I go to the Y. M. C. A. or to see Paul. I haven't seen Paul this week.

They put another boy in my tent last night, from Mississippi. I think I will get a new pair of shoes today. I never had shoes that were so easy on my feet. My arm is well and I really think I will hunt Jack Johnson and try him a round when I get out of the army. We have to learn to run, and jump and box down here. We get in a circle as big as Bethel park and stretch out like drop the handkerchief, then two boys take off the belts and buckle them together and take hold of each end and run around the circle as fast as they can run and each and every one jumps as they come to him.

Sunday morning, 7 a. m. Have had breakfast. Took a letter to the other John P. Daly. I have got three of his letters. Opened two before I saw my mistake. I took them to him opened but I did not read them.

I have been in camp two months this evening. I must say I have done some moving since I have been here. I have better health than when I came here. Jim and Dave will really get along better than I in some ways for they did more running and jumping than I did when at home.

Opal Blair came to my tent the other night. He has not been able to do drilling as his feet are flat and weak. He has had to stay in his company street most all the time. I am going to see Paul when I get through writing. On Tuesday I got no mail, and then I got your letter and three from E. B.

I must close now as I hear music in every direction. I won't be home but hope I will be able to soon after and several of them. I hope to hear from you soon.

Private John P. Daly, Co. A, 139 M. G. B. M. Camp Shelby, Miss.

That everybody had forgotten me, but not so. I haven't got your letters up here so I don't know how to answer, but anyway I will do the best I can. Aunt Lillie and Aunt Ethel finally wrote me. They both wrote me such interesting letters; I sure appreciated them. Say, those pictures were not much good, but that's about the best I can get here. I will have some more made pretty soon and hope they'll be better. Tell Dad I think he wrote such a nice letter. Tell him I sure appreciate his letters.

I want you to take life a little easier than you have been. You can't stand it to work too hard. Well, I will go to the shooting range in about two weeks. That's HERBERT WALCOTT.

AT TEXAS CAMP.
The letter given below was received by relatives recently from Herbert O. Walcott, who is with the sixth recruit company, 37th infantry, Laredo, Texas:

Laredo, Texas, July 12th, 1918.
Dear Folks:

I am up at the Y. tonight at a big dance and got tired, so I decided to drop you a few lines. I am well and feeling fine. Haven't been sick since a while back. Well, I guess you thought I had died, by my not writing sooner, but have been very busy. Have you got my ugly mugs and cards sent you?

I have twelve letters to answer tomorrow (Sunday) so you know I am not very idle. The people sent me twenty letters last week. I was thinking awhile about ten miles from here. We will be there about three weeks and then I don't know where we will go, maybe over there. I am rearing to go. You may not think so, but I am, just the same. Everybody seems to think we will go to Brownsville to guard some mines (coal), but we don't pay any attention to what we hear in the army, unless the officers say so. Well, I sure do like to hear from everybody. Why didn't you send me Mac's address? Say, I got a letter from Oscar Rapsilber yesterday. I got five other letters the same day. I am sure getting lots of mail. I never got any boxes, like some of the boys have. My girl said she was going to send me a box. I never said anything to her about a box, she voluntarily said she had some friers, almost big enough to eat and was going to send me some.

All the Jacksonville boys are with me. We had some new barracks built and all moved together. We have sure got an ideal home now, but will have to leave it soon. Say, did you get to see the photograph of us boys that was made by the opera house that morning we left? They were all happy, or looked to be. We have got one of them down here in our

baracks. There are only 250 of us in the same hall (as you might call it). Our cots are spaced about one and one-half feet apart.

Two of our boys have tried to desert, but they got caught before they got out of town. They were both Germans and didn't know who knew it. They got one 'this morning and he will probably get twenty years in Leavenworth, Kansas, in the United States work house. The other one is crazy, or plays that way. I don't know what they will do with him. I sure wouldn't try it, if I wanted to, but I am glad that I am a soldier and can fight for my country. It's a great honor, I think.

Our company took the prize again day before yesterday evening in the regimental parade. We sure did some pretty work. Every man has to do his part, if one man goes wrong the company front is spoiled. They told us we win, but they are afraid to brag on us too much. They say we'll think we are perfect and will quit trying. We have sure worked hard to know what we know. I can sure tell you all a lot of stuff when I get home. We are getting to be acrobats. We take about one and one-half hours' practice, exercising our body. We sure move every muscle in us, too, if you believe me. We can take big hikes across the country now and next morning not be sore or tired. You, I guess, laughed at my number I sent you to address my letter, but you know all auto mobiles have numbers. That's what we are; ha, ha. Or you might call us express wagons, especially if you could see our load or packs (as we call them).

They tell me the army either makes a man out of you or kills you. I guess I am going to be a man. I am still living, so far. Ha, ha! Well, there are plenty of German spies down here. They caught three coming out of Mexico into the United States about four days and five about two weeks ago. Nobody knows what they do with them. None of us care, just so they don't turn them loose to do more mischief.

I wrote Mrs. Rice a card and letter and never heard from her. Next time you see her ask her if she got them. Tell Charles Spreen I got his letter, also, and will answer as soon as I can. Tell Grace I sure appreciated her stamps she sent me. Anything like that is always appreciated by a soldier. I'm not hinting for more, ha, ha. I am trying to make up for lost time in this letter, for not answering sooner. Well, I have about run out of news and I guess you'll get tired of reading this nonsense, anyway. So I will close.

I want you to especially take good care of the pillow top I sent as a remembrance to mother. I know you won't forget poor mother, but I think that's awful pretty and such suitable words on it. Tell Dad that I hope the pictures made together some of these days and send him one.

All the boys from Jacksonville are looking fine and at good, patriotic boys. I was sure more than pleased when I saw our picture that was made out there by the opera house that morning we left. Well, I must close, as it is twenty minutes till eleven (tonight) already and I'm supposed to be in the barracks and in bed at eleven. Maybe I can mail it. I guess they won't kill me if I am not there.

I don't remember whether I wrote you since the Fourth or not, but, anyway, we sure did have a lot of fun that day. We got off on all holidays, also Saturday afternoon and Sunday. We are beginning to get more freedom every day. And we are not classed as drafted men. We are called enlisted men, because we were brought here to fill out the 37th infantry. Our officers told us we were not drafted or, I mean, weren't classed so. They said we were lucky to get here, but I can't see it that way. This country is disgusting to me.

Well, this leave me all O. K., and hope it will find you the same, so I will have to hang up the receiver and stop talking till I write you again. I hope you are all in the best of health and good luck, and I also hope you have the pleasure all of you to live till I get to see you once more. Well, good health and lots of love to not one, but all. I remain, as ever, your brother and son.

Big sale on Fancy Free Stone Alberta peaches for canning today and Wednesday. Everyone should take advantage of this opportunity to secure at least one bushel of these peaches as the present week will wind up the peach crop for this season. W. S. Cannon Produce Co., Distributors.

ST. LOUISIANS VISIT RELATIVES HERE.
Mr. and Mrs. Russell Mason of St. Louis are in the city, visiting at the home of Mrs. Mason's grandmother, Mrs. Thomas Mason and with other relatives and friends. Mr. Mason, who is in business in the Missouri city, expects to enter army service in a short time. He was born in this city twenty two years ago and is a son of Mr. and Mrs. Frederick W. Mason.

THE PASSING OF EDWARD A. BARBER

Word came some time ago, regarding the death of my classmate, Edward A. Barber, but lack of details has delayed an obituary notice.

Edward A. Barber was the son of Mr. and Mrs. Augustus K. Barber. A. K. Barber was a native of Vermont, coming to Illinois in 1817, and to this region about 1824. At that time, and for many years after, he was a school teacher in the western part of this county, and in or about Concord. He then became a farmer at the latter place, and retired to this city in 1863. Here he became an elder in Westminster church, and was a man of brightness, of intellect and considerable education, mainly self-taught.

Mr. Barber was twice married, first to Miss Wilson, daughter of Judge Aaron Wilson, one of our earliest settlers. By her he had a son Charles, and a daughter who married Otto D. Critzer, of Meredosia, and another who married Henry H. Massey, here. Mr. Barber lost his first wife, and later married Miss Camp, daughter of George Camp, also one of our earliest settlers, and latterly a resident and one of the rich men of Scott county. Mrs. Barber was a sister of Mrs. E. G. Rice, mother of the well known family of that name here. Mr. and Mrs. A. K. Barber had but two children, Edward A. and George C. The latter a leading citizen of Prague, Okla., died in August, 1916.

Mr. and Mrs. A. K. Barber went to Humboldt, Kansas, in 1887, where they died about twenty years ago.

Edward A. Barber was born near Concord, this county, August 22, 1848. He came here with his parents in 1863, and just dwelt on West College avenue just west of Mr. J. P. Lippincott's. This was his home until after his graduation from Illinois College.

In the class of 1868, in which he took honors. He then taught a year, or two in our High School, and read law with Morrison and Whitlock. In college he was a member of Sigma Pi Society, of which he was a president.

After reading law, about 1870, Mr. Barber went to Humboldt, Kansas, where he began the

practice of his profession, he and his brother George C., buying a farm, which the latter managed. They were prominent there, and E. A. was an elder in the Presbyterian church.

They afterwards took over the Pratt-Dayton bank, which they ran for several years. After this George C. came back to Illinois, going afterwards to Oklahoma, where he engaged in farming and banking, and was also a Presbyterian elder.

Mr. E. A. Barber was married in Humboldt, to Miss Elizabeth Harris Watts, Jan. 12, 1875. Her father had been a merchant in Aurora, Ind., and became a farmer near Humboldt. The Barbers were parents of Newton Kent, now C. D. Q. M. at Ft. Moultrie, S. C.; Jane Baird, now Mrs. William Mallis, of Seattle, Wash.; Miss Zay, a teacher, now in Berkeley, Calif.; Miss Anna teacher in Carlin, Nev.; and William Watts, who died in 1908, he being the second child of the family. Mrs. Barber died in August, 1912, and was buried in Springfield, Mo.

Mr. E. A. Barber went to Springfield, Mo., in 1896, and was in the wood and coal business there until 1910, when he went to Fallon, Nevada, where he engaged in farming until January, 1913, when his health compelled him to retire from active work. In the country he was active in school matters, being trustee, supervising the erection of a school house and influential in making it a community center. He always maintained strong interest in books, and kept posted on current events.

As already announced, Mr. Barber passed away at Berkeley, California, April 15, 1918.

R. A. T. BARTLETT DIED AFTER LONG ILLNESS

Spent Years in Army Service As Surgeon—Prominent for Long Period Among Physicians of State—Funeral Plans Not Complete.

Death came to Dr. Aurelius T. Bartlett Monday night at his home on West College avenue Dr. Bartlett, who ranked in ability with the leading surgeons of the state, had been ill thru a long period and his death was not unexpected by those who knew him well. He became resident of Jacksonville in 1903 and is survived by his daughter, Mrs. James O. Vosseller and one son, Dr. Willard Bartlett of St. Louis, who has a wide reputation as an especially successful St. Louis specialist. Dr. Willard Bartlett has been a frequent visitor in Jacksonville during his father's illness and was here just a few days since, but was unable to be present at the final hour because of the critical illness of his youngest son. Mrs. Bartlett's death occurred in March, 1917.

Born in Maine. The deceased was born December 4, 1830, at Seabrook, Me. His preparatory education was attained in the common schools of Ohio, supplemented by a course in Temperance Hall academy at Jacksonville, Ill. He taught school for a time in each of the above named states, and commenced the study of medicine in 1853, at Jacksonville, Ill. He attended two courses of lectures at Missouri Medical college and Rush medical college, from the latter of which he was graduated in 1862. He also attended a course of lectures at St. Louis Medical college in 1834, receiving the degree; also took a post-graduate course at the New York Polytechnic in the winter and spring of 1891.

Commissioned Army Surgeon. April 21, 1862, he was commissioned assistant surgeon in the Missouri State Militia. In the service of the federal army, was promoted to rank of surgeon on May 7, following; was mustered out February 15, 1863; recommissioned surgeon of the thirty-third Missouri Volunteer Infantry April 15, 1863, and was mustered out of service Aug. 10, 1865, having been reported "present for duty" with regiment every day, although as senior medical officer in his brigade he frequently did brigade and division work. In October, 1865, Dr. Bartlett located in the private practice of medicine at Virden, Ill. While resident at Virden he was the local surgeon of the J. S. E. road, now part of the Burlington system, and was for several years president of the Macoupin county Medical society. He was a member of the Capital District Medical society, of the District Medical Society of Central Illinois; of the Illinois Army and Navy Medical Association and of the Illinois State Medical society; an ex-member of the American Medical Association and of the National Association of Railway Surgeons.

While associated with the 33rd Missouri infantry Dr. Bartlett was appointed surgeon in chief of the district of eastern Arkansas and later was made a member of the board of operators for the first division, 16th army corps, and was actively employed as such in several engagements in the river campaign, Louisiana and at the battles of Tupelo, Nashville and Moline, besides others of less importance. For a great many years the deceased engaged in general surgical practice and his reputation extended thru a wide territory. He was the author of a series of valuable articles on surgical topics and in his day appeared upon the programs of various medical societies.

Member of Masons. While a resident of Virden Dr. Bartlett was a member of Virden lodge A. F. and A. Masons and served as Worshipful Master of the lodge for six years. He was an elder in the Presbyterian church and for a long time active in identified with the church interests of his home community. After becoming a resident of Jacksonville he was associated with State Street Presbyterian church.

Dr. Bartlett's marriage to Miss Sue A. Brown occurred October 23, 1866. As already mentioned Dr. Bartlett had a notable army career, serving as surgeon in thirteen engagements during the war and in nearly all was a member of the board of operators in the first division of the 16th army corps. Various contributions he made to the army medical museum are on view at Washington, D. C.

Successful in Practice. After the war Dr. Bartlett was very successful in the practice of his profession and acquired large holdings in the vicinity of Virden. The development of the coal industry in that locality gave added value to his farm properties and his estate is one of large value. Because of his advanced years during his residence in Jacksonville Dr. Bartlett has lived a somewhat retired life. His interest, however, in the community was marked and he was active, associated with the affairs of State Street church and in Matt Starr post G. A. R. Although so successful in his professional work and in business affairs, Dr. Bartlett maintained thru all the years a characteristic modesty and gentleness of spirit. Those who knew him well appreciated the fact that he was a man of trained intellect and broad and generous spirit. In his professional life he kept fully up with the development of medicine and surgery. Following his retirement he did not abandon interest in life and was a close student of affairs. His own recollection added to his interest in the present world struggle and even during the days of his invalidism he constantly followed the progress of events in Europe and the war preparations at home.

Both

Dr. Bartlett was a Christian gentleman of the fine type that the present day does not seem to develop generously. There was vigor and gentleness all thru his life and those who knew him best had the keenest appreciation of the strength and worth of his character and mentality. The arrangements for the funeral have not yet been completed.

MANY AMERICANS NOW WITH BRITISH TROOPS

American Soldiers New Spread All Over Back Areas of British War Zone—American Airmen Heard Everywhere.

HEADQUARTERS AMERICAN TROOPS With "The British Forces in France" (Correspondence of The Associated Press.)—American soldiers are now spread all over the back areas of the British zone in France. So thick are they it is impossible to miss them out of doors. If over the seas men are not met in groups on the road they are seen sitting in circles around British non-commissioned officers listening to lectures on quick firing, or doing gas mask drill in the meadow.

There are columns of Americans "hiking" along the valleys beside fast running trout streams, and up and down or around the hills with which these areas are studded. You see them off duty in all the farm yards and up all the lanes. They are wandering about on the by-roads getting the lay of the land, and sometimes stepping aside to gather the poppies, blue bells, daisies and buttercups that make the French countryside look like a huge bouquet at this season.

There are Americans in the villages buying knick-knacks, hunting the scare American smoking tobacco or sitting with children in doorways getting first notions of French from their picture books. They are on an improvised diamond in a pasture with bat and ball occasionally, not often, for sporting articles are quite as scarce as American tobacco here where the American Young Men's Christian Association has not yet penetrated effectively.

American airmen are heard everywhere sung, whistled or played on an instrument that is quite as strange to these parts as were the bag-pipes four years ago—the mouth organ. The pipes and mouth organ come together frequently where the Scotch and Americans are billeted in such proximity as to facilitate an exchange of amenities. If the overseas boys have not yet learned to appreciate all the beauties of the pipes, the Scotchman dance to almost any kind of music.

CLOTHING SCARCITY IN BERLIN REPORTED The Hague, July 22.—Lather shoes are sold out in Berlin says the correspondent of the Amsterdam Handelsblad. "Clothing of all kinds, including underclothing, is most difficult to get, even with a clothing card. No handkerchiefs, no shirts, no socks, no napkins, no woolen or cotton jacket for baby. Decent washing and toilet soap has long been unobtainable. Many, many things are unobtainable that are still to be had in Holland, although prices may run much higher than in peace times. Yet the Berliner looks fairly clean and well groomed. The art of clothes mending has been carried to a fine point here. And water and sand keeps you clean, too at a pinch.

"A smokable cigar cannot be bought for less than 60 fenings, and then not more than three at a time. A cigarette costs 12 fenings, and smoking tobacco has gone the way of rice and beans and peas and salad oil and brandy and turpentine and sealing wax and a hundred other articles. Gone completely gone! "Only as regards food, the Berliners are better off. There is hardly any limit on gas, electricity or coal.

"Great material privations have been, and are being borne, with fortitude. Added to which are the pangs of mourning and sorrow, grief and anxiety, in thousands of homes for the fallen, and those about to fall."

GERMAN EMPEROR SEEKS NEW NATIONAL ANTHEM

Amsterdam, July 22.—(Correspondence of The Associated Press.)—Germany's emperor is still seeking a suitable "National Anthem," German officials have decided that the music of "Heil Dir Im Siegerkranz" ("Hail to Thee in the Victor's Crown") should be changed as it is the same as the tune to which "God Save the King" is sung, or else that an entirely new hymn should be substituted.

A committee of prominent Germans was formed and poets and musicians throughout Germany were requested to compete in the national air contest. More than 3,200 pieces were submitted, some of them being sent to the emperor himself, but no fit hymn has as yet been found. Recently the poets and musicians were asked to try again.

ARSENAL WORKERS DRAW BIG SALARIES

London, July 22.—Some of the 8,000 boys employed in war work in the Woolwich arsenal near London earn twice as much salary as the Bishop Suffragan of Woolwich. The Bishop, W. W. Hough, recently pointed this out in an address and said that a year ago some of these boys were street outcasts. "They are earning far too much money," he said, "they easily get into bad company and many of them go to the devil as fast as they can."

The game fight which the New York Yankees have been putting up is an excellent testimonial to abilities of Manager Miller Huggins.

The Athletics own some pretty nifty hitters, but weak pitching has kept the team down in the joke region.

JACKSONVILLE GIRL WEDS AT DECATUR

Miss Helen Ruth Whitaker Bride of Reed Calvin Massey, of Lane, Illinois.

Decatur, Ill., July 22.—Helen Ruth Whitaker, of Jacksonville, Ill., and Reed Calvin Massey, of Lane, Ill., were married by Rev. S. E. Long in First United Brethren parsonage here tonight.

The bridegroom is an enlisted man stationed in Camp Washington, Maryland.

Miss Whitaker is the daughter of Mr. and Mrs. W. H. Whitaker of 848 West Chambers street, and has for some time been bookkeeping for the Jacksonville Rug Manufacturing company.

AERIAL AMBULANCE IN ACTUAL SERVICE

Fulfills Expectation of Officers Who Advocated Its Adoption—Has Red Cross Painted on Its Wings.

Lake Charles, La., July 16.—An aerial ambulance assigned to Gerstner Field near here has made its first run in actual service and has fulfilled the expectation of officers who advocated its adoption.

A lieutenant at target practice at the aerial gunnery school about twenty miles from the flying field recently descending at a terrific speed from an high altitude and firing his machine gun at a target placed on the surface of the lake, failed to flatten out sufficiently when he completed his dive and crashed into the water. He was rescued immediately while not seriously injured was badly bruised and shaken up, necessitating a few days confinement to quarters.

The round trip by automobile from Gerstner Field to the gunnery school consumes from an hour and a half to two hours over a rough and roundabout road. Instead of telephoning for a car the aerial ambulance was ordered.

Forty five minutes later it had made the forty mile flight from Gerstner Field to the lake and return and the injured aviator was in his quarters receiving medical attention.

The flying ambulance is described as a large biplane with the usual seat for the pilot and an adjustable or reclining chair for the patient. To distinguish it a large Red Cross is painted on the wings.

EFFECT OF CIGARETTE AN AID TO WOUNDED

Paris, July 21.—Anti-cigarette reformers would get scant consideration from the medical corps of the United States army, according to major surgeons stationed in hospitals along the front, some of whom say that the cigarette produces a relaxation for the wounded and the men just out of the trenches that no medicine could possibly produce.

"I have seen men borne in on stretchers or staggering in on their feet, with their faces contorted showing either physical pain or mental strain from their grim experiences in the trenches, relax, smile and ask for something to eat, after having a 'whiff' of a cigarette," said a surgeon in charge of a casualty clearing station.

"The effect of a cigarette is wonderful. It certainly is too medicinal for the action is too quick." As soon as the lads take their first "whiff" they seem eased and relieved of their agony."

SOLDIERS HOPING FOR CHRISTMAS PARCELS.

With the American Army in England, July 22.—Letters from men in the rest camps and training camps to relatives "back home" are beginning to carry inquiries as to the probabilities of a relaxation just before Christmas of the orders restricting the transportation of parcels.

The cutting down of space on ships formerly used for carrying parcels to the men either already in the trenches or waiting orders behind the line has sharply affected the men although there has been displayed no resentment. They have understood the wisdom of utilizing space for more men and munitions, but Young Men's Christian Association secretaries and censors agree that letters going to America are filled with suggestions to relatives that efforts be made to get thru their Christmas packages.

GERMANS PERFECT "FOG DETECTOR."

London, July 22.—German scientists have perfected an instrument known as "fog detector" according to an Amsterdam correspondent of Reynolds's Newspaper. The instrument, which is said to be already in use in the German naval and aviation services, indicates the gathering of a fog, its density and duration, about ten hours before it settles down.

FREIGHT SHIPMENTS

The uncertainty of the movement of freight was well illustrated yesterday when the Journal Company received a car of paper billed from a point in eastern Maine July 10th. Because of expected delay in the receipt of this car a special order for the shipment of a few rolls of paper was placed in Cincinnati at this paper was shipped out July 6th, and has not yet reached Jacksonville.

The lack of a single .300 hitter doesn't seem to bother the Pittsburgh team, which continues to travel right along in first division company.

Even if the Cleveland Indians fail to win the pennant they will have the satisfaction of knowing that they put up a real battle for the flag.

Should the Reds continue to drop games, the Cardinals are long will have to yield their exclusive franchise on the cellar.

Some sort of a jinx must have picked Hal Chase as a victim. It is the first time in many seasons that the Cincinnati star hasn't featured prominently in the records.

TEDDY NOT CANDIDATE FOR GOVERNOR OF N. Y.

Declares That Under No Circumstances Would He Accept Republican Nomination for the Office.

Oyster Bay, N. Y., July 22.—Colonel Theodore Roosevelt issued a statement tonight in which he declared that under no circumstances would he accept the Republican nomination for governor of New York.

The former president made his announcement when he sent a telegram to Attorney General Merton E. Lewis at Albany in reply to a message which Mr. Lewis sent several days ago offering to withdraw from the race if the colonel would become a candidate.

In his telegram Colonel Roosevelt did not mention any of the subjects which were taken up by the Republicans at their convention last week. He did not refer to prohibition or woman suffrage nor did he propose a candidate for governor.

COAL MINERS IN RECORD PRODUCTION

WASHINGTON, July 22.—American coal miners established another record production during the week ending July 13, figures made public by the fuel administration show. A total of 13,243,000 tons was mined, an increase of 2,977,000 tons over the week before and 1,031,000 tons above the average weekly requirements of 12,211,500 tons estimated by the fuel administration as necessary to keep the war program going at full speed.

THINK TEN MILLION YANKS ARE IN FRANCE

WITH THE AMERICAN ARMY ON THE AISNE-MARNE FRONT, Sunday July 21.—By the Associated Press—A German prisoner captured by the Americans today formerly was a baker at New York and Lebanon, Pa. He was asked what the German soldiers thought about the Americans.

Since Thursday the prisoner said, the Germans have concluded that the announcement that a million Americans were in France was false and rumors among the Germans on this front are that there are ten million Americans in France.

FRENCH FLYER BRINGS DOWN SEVEN PLANES

PARIS, July 22.—Lieutenant Rene Fonck, one of the leading French aces, brought down two German airplanes on July 16, two on July 18 and three on July 19. Six of these machines were brought down in flames. Fonck's total is now officially fifty-six machines.

U. S. MEAT ORDER BREAKS ALL RECORDS

CHICAGO, July 22.—The government's latest meat order, received at the stock yards today is said by packers to break all records. It calls for 99,550,000 pounds of bacon and 134,000,000 pounds of canned meats for the army. The cost will run between \$140,000,000 and \$145,000,000, it is said, of which \$130,000,000 will go to growers of livestock. Deliveries are to be completed by January 1, 1919.

SLAUGHTER OF BROILER TURKEYS WASTEFUL

Washington, July 22.—Pointing out that the slaughter of broiler turkeys is wasteful, the food administration has appealed to hotels, clubs and restaurants to discontinue serving broilers. Farmers also were urged not to sell turkeys until they are matured.

MURDER MYSTERY

Chicago, July 22.—Chicago police and the coroner's office have been appealed to, to help solve a so-called murder mystery from Jasper county, Illinois. An analysis was asked today of the vital organs of Mrs. Grace Worthy, of Newton, Ill., who died in the Fort Dearborn hospital, April 10, four days after she had given birth to a baby. Charges are now being made that the young mother died from poisoning. Dr. E. L. Denison, who attended Mrs. Worthy, scouted the charges.

OPENING POSTPONED

Toledo, Ohio, July 22.—The opening of the Grand Circuit racing week here was postponed today on account of rain, which began just at starting time and lasted more than an hour. Today's card of races will be run tomorrow.

TURK TARGETS AROUND

Rockford, Ill., July 22.—Five thousand Camp Grant soldiers who have been practicing nightly on the rifle range shooting at targets in the form of German faces have turned the targets around since the American victory in France and are now shooting at their backs.

GERMAN GENERAL RESIGNS

Amsterdam, July 22.—General Von Francois, commander of the seventh army corps on the western front, has resigned, according to the Lokale Anzeiger.

TO ESTABLISH UNIFORM RECORDS

Washington, July 22.—Establishment of uniform standards of physical examination for the regular army, National army, and National Guard was announced today by Surgeon-General Gorgas. Standards also are established as to remedial defects which must be corrected.

FAVOR DIGGING OF TRENCHES IN CITY

Amsterdam, July 22.—The municipal authorities at Cologne have approved a plan for the digging of trenches in the suburbs for better protection of the residents from British and French air raids.

Women section hands with pick and shovel are employed in the Cincinnati railroad yards.

GERMAN CONTROL OF INDUSTRY WIPED OUT

WASHINGTON, July 22.—German control of the metal industry in America has been wiped out by Alien Property Custodian Palmer in the seizure of the large metal concerns in the United States with ramifications into South America, Mexico and Canada. Mr. Palmer announced today he had taken over L. Vogelstein & Co., Incorporated, of New York City with assets of more than \$9,000,000 and Ber. Sondheimer & Co., Inc., also of New York City with assets of upwards of \$5,000,000.

In addition he has seized the enemy owned interests in the American Metals Company controlling some sixteen companies in this country and South America and Stafford & Co., declares market of the world and they with the American Metals company controlled most of the principal metal and smelting companies of this country, either by complete ownership of stock or by representation in the directorates.

Ludwig Vogelstein, head of Vogelstein & Co., is an American citizen but for many years he has represented in this country the firm of Aaron Hirsch and Sohn of Halberstadt, Germany, which did an average business of about \$70,000,000 a year in the United States, Canada and Mexico.

It was revealed that the Ber. Sondheimer and Vogelstein companies were closely affiliated with the German metal Gessellschaft, which for some years has dominated the entire metal market of the world and they with the American Metals company controlled most of the principal metal and smelting companies of this country, either by complete ownership of stock or by representation in the directorates.

Now the government has learned that Germany has made wide and damaging use of the Prager case and others of a similar nature thruout Mexico and South America, and even in Europe, where the propaganda has been at work to controvert the president's pronouncements of justice for all.

ANNOUNCE INCREASE

Washington, July 22.—To meet the increased railroad freight rates recently ordered by the railroad administration, the fuel administration has announced that effective today it would not object to an advance of one-half a cent a gallon in the tank wagon market price of gasoline, naphtha and refined oil throughout the country. The advance in the retail price shall not be greater than that in the wholesale price, it was announced.

DALLMAN IN CUSTODY OF WRECKED STEAMER

Peoria, Ill., July 22.—United States Marshal Dallman today assumed custody of the wreckage of the steamer Columbia, upon a petition in admiralty issued by Federal Judge Fitzhenry. The petition was filed by Herman F. Mehl, owner, asking the court to limit liability of the owner upon claims that may arise. The United States marshal was appointed custodian with authority to raise the hull, sell it and the salvage, receive the passage money from the last trip and the freight pending, and to guard the wreck from piracy.

The liability was limited to the value of the wreck.

The first club of American working girls was formed 35 years ago in New York City.

MAKES URGENT APPEAL FOR FREIGHT CARS

Springfield, Ill., July 22.—An urgent appeal to the car service section of the federal division of transportation at Washington for 200 cars within the next seventy-two hours, in which to transport wheat from Central Illinois, was made today by Charles Adkins, director of the Illinois department of agriculture. Wheat threshing is now going on at a lively rate thruout this entire section. Car shortage is most pronounced. Mr. Adkins said, between Beardstown and Springfield, on the Baltimore & Ohio railroad.

Sangamon county alone, reports show, fourteen elevators are chock full of wheat and only a scanty supply of cars are forthcoming in which to move the grain. Similar conditions are said to exist elsewhere in Illinois counties.

ENROLLS AS LIFE MEMBER.

New York, July 22.—Prince Tokugawa, head of the Japanese Red Cross mission visiting this country, enrolled as a life member of the American Red Cross here today. His nine associates took out annual memberships.

WINS CHAMPIONSHIP.

Kansas City, July 22.—Heath Moore, of Kansas City, won the championship in singles of the Great Plains tennis tournament today, defeating Frank C. Howard, also of Kansas City, 6-1, 6-3, 6-4.

SCHOOL BOARD ADOPTS BOILER HOUSE PLAN

WORK CAN BE PUSHED ALONG
AT EARLY DATE.

Revised Agreement for Competition Program Among Architects Adopted—Awaiting Approval of Adviser—General Facts About Proposed Building.

At the meeting of the board of education Monday night the plans for the new boiler house were approved and J. K. C. Pierson, architect, was instructed to take the next necessary steps with reference to the work. Mr. Pierson had prepared a plan for a power house which met with the entire approval of the board. It is proposed to locate it near the northwest corner of the old Springfield property, recently acquired. It will be so placed that the coal hole will adjoin the alley and the plan provides for an addition to the building if desired in later years.

The board then spent several hours in discussion of the general proposal prepared by Henry K. Pierson, architectural adviser. President Lippincott presided and all members of the board were present except Mr. Tapp. The board made a number of changes in the arrangement proposed for competition among architects presenting plans and the revised "program of competition" will be forwarded to the adviser. If it meets with his approval and is in accord with the American Institute of Architects rules, the work of drawing plans will proceed at once. The program as prepared by the adviser calls for a payment of 6 per cent of the building cost to the architect whose plans are adopted. The board changed this figure to 5 per cent, as that has been customary in years gone by.

Later Building Time Suggested. In the vote which provided the system for architectural supervision and the fee to be paid, there

was a tie vote which was decided in the affirmative by President Lippincott. The members voted as follows: for, Members Black, Hopper, Metcalf and Rogerson; against, Members Duncan, Muehlhausen, Parker and Pierson. On the final vote to make the amended plans for competition the order of the board the vote was unanimous. Previously Mr. Muehlhausen expressed himself as opposed to building at this time, his belief being that it would be better to make temporary arrangements for school quarters and postpone building until the cost of materials is less.

The competition in plans will be in two stages, twelve architects selected by an agreed system to be invited to participate. In the second stage there will be six architects, the board having so worded the agreement that the two local architects will be included in the six whose plans are finally considered. In the first stage of the award the jury will include the board of education, the superintendent of schools and the architectural adviser. In the second stage the jury will consist of the board of education, superintendent of schools, the architectural adviser and two architects. The various plans submitted by the architects will be without name and the identity will be revealed by a series of numbers. The five architects whose plans reach the second stage will be made an award of \$200 each to cover their costs. The board agrees not to adopt features from successful designs without the consent of the author of the design.

Economical Way to Get Plans. As previously indicated, the board has adopted this plan of architectural competition in the belief that the results will be satisfactory and the plans obtained at less cost than would be true if members of the board visited various cities for the inspection of buildings. The general building requirements as outlined in the program of competition are given below. These of course are simply for the general direction of architects in preparing their plans:

Requirements of the Building

A. The building is to be built of good available materials in accordance with good practice with a view to rigid economy consistent with good lighting, ventilation, sanitation and good taste.

B. A compact design not to exceed two stories and basement in height is desired.

C. The exterior should be a combination of brick and stone or brick and Terra cotta or a combination of the three. Sheet metal or wood exterior architectural treatment will not be acceptable. The entire building, excepting possibly the roof or attic structure should be fireproof and corridors should be made as noiseless and sound-proof as possible.

D. A plot plan of the site and a photograph of the existing building will be sent to each competitor in the second stage of the competition. The blocks surrounding the site are occupied in the main by frame residences. The steam heating plant for the new building and the existing building will be located in a separate structure. The heating plant building is not a part of this competition.

E. Provision should be shown by dotted lines or otherwise, for future extension and for a roadway or covered passageway connecting the existing building with the new building.

F. The following provisions are mandatory to be observed: rooms and capacities required except that no limit is placed on any excess area that may be provided in the following list and scheduled by a competitor:

G. Except as otherwise stated elsewhere, the location of rooms and departments in the building and toilet

let rooms, cloak rooms, rest rooms and other auxiliary provisions, for the purpose of this competition, are left to the judgment and discretion of the competitors.

List of Rooms and Schedules of the Requirements

1. Auditorium: Seating capacity, 1000 with balcony. Stage, 100 feet long. Recitation or teacher's rest rooms which can be used as stage ante rooms.

2. Two study halls: Seating capacity about 200 each, on same floor with library.

3. Library: Single room, well lighted, medium size. No separate stockroom.

4. Officers: A. Principal, outer and inner. B. Superintendent, outer and inner. 1. Board of Education room. 2. Vault, fireproof. 3. Wash bowl and toilet. C. Janitor's room. D. Storage room.

5. Music room.

6. Toilets on each floor, larger in basement.

7. Physical training quarters, etc., for girls.

8. Class rooms: A. Twelve recitation rooms—for English, languages, history, mathematics—capacity, thirty each. Slight variation in sizes, standard.

9. Business department: (Glass partitions). 1. Typewriting. 2. Stenography and duplicator quarters—accommodating 20-25 pupils each. B. Bookkeeping and banking. C. General office practice quarters.

10. Science department:

A. Physics laboratory, accommodating 30 with cases.

B. Chemistry laboratory, accommodating 30 with hoods and cases.

C. Stock room and dark room.

D. Common lecture room to be darkened, accommodating 60.

E. Zoology, botany and physiology, accommodating 30.

F. Agriculture, accommodating 30.

G. Common lecture room for zoology, botany, physiology.

11. Manual Arts Department:

A. Two wood shops, glass partition, capacity 30. One large, to contain machines and lathes. One wood stock room containing racks.

B. Mechanical drafting room.

C. Industrial arts and drawing room.

D. Print shop.

12. Domestic economy department:

A. Domestic science laboratory, capacity 30 with combination gas-coal range.

B. Small "cafeteria" connected with serving windows to Domestic Science laboratory.

C. Model dining room and pantry.

D. Sewing room, millinery room, glass partition, accommodating 30 each.

E. Fitting and pressing room (small), two pressing boards in wall.

Demonstration housekeeping room, includes model dining room.

G. Storage room for furniture. (See "C" above.)

H. Lecture observation room, connected with demonstration room by folding or rolling doors.

I. Laundry (small).

COULD NOT OPEN SAFE

Last Friday George W. Scott of the Pacific hotel found that the combination would not work when he tried to open the office safe. All of the cash and books were locked up in the safe and it made the situation rather awkward on Saturday G. A. Seiber, who is an expert on safe locks, tried his skill on the job. He could not make the combination work. On Sunday John Kearns and Frank Leeder tried their skill. The safe resisted all efforts. Monday Mr. Seiber drilled a hole in the door and worked the tumblers and got the strong box open. It was found that the combination was not true. It will be thoroughly overhauled so that no such accident is likely to happen in the future.

ARRIVES OVERSEAS.

H. Johnson of 638 South West street, received word Monday morning of the safe arrival of his son, Carl Arthur Johnson overseas.

GROW POTATOES IN ALLOTTED GROUND

London, July.—The food production department estimates that there is under cultivation in Great Britain more than 200,000 acres in allotments. Some of this land under cultivation by individuals is in the great parks of London, even Hyde Park not being spared. In the city the individuals pay about twenty pence a year for plots from thirty to forty feet in length to fifteen feet in width.

Food officials say there are more than 1,400,000 allotments and that about 100,000 acres of potatoes are growing in allotted ground.

FINE FARM FOR SALE

The owner offers for sale a splendid stock and grain farm of 160 acres in LaGrange County, Ind., nicely located in a good neighborhood, but a few miles from two railway market towns, on a gravel road, 1 mile from school and close to church. Soil is a good quality of chocolate loam, very productive, surface level to gently undulating; 140 acres in cultivation, 20 acres in timber; all well drained. Buildings consist of a good 2 story 7 room frame house; barn 40x72, corn crib, hog house, etc.; wove wire fences; water piped to house and barn.

Price \$170 An Acre This is only one of the several hundred well improved money-making corn farms that we can offer in Northwestern Ohio, Northeastern Indiana, Illinois, Minnesota, North Dakota and Southern Ontario. Write for new Straus Red Book—a valuable farm buyer's guide—and talk with our local representative—

EXPERTS STUDY GERMAN LONG RANGE GUNS

Belief is That Bursting-Charge of Shells is Mixed With Projectiles Are in Actual Flight—No Shell That Failed to Explode Found.

Paris, July.—(Correspondence of The Associated Press.)—That the bursting charge of shells from the German long-range guns is mixed while the projectiles are in actual flight is the belief of French scientists, according to a technical journal published here.

When the shelling of Paris began it was noticed that the explosion of a shell produced a cloud of black smoke mixed with a little that was white and accompanied by a strong smell of ether. Recently the smoke has been entirely white and very light, the ether odor persisting.

No shell that failed to explode has been found, nor even an indication of how delicate and reliable the explosive is. This fact leads experts to suppose that the shell is charged with two liquid explosives separated by the perforated partition which is known to exist in the center of the projectile.

When the shell is fired at a high angle the liquid in the upper end combines with that in the lower chamber, and churned by the violent rotation, produces at the moment of impact, three minutes later, a perfect mixture. This would explain, it is said, the ability of the charge to resist the enormous shock when fired and remarkable uniformity of the explosions.

TO PUT WHOLE TOWN ON AUCTION BLOCK

London, July.—Any man whose ambition to own a whole town will have an opportunity to satisfy his desire here next month.

By direction of Lord Strathmore, the owner, the entire town of Shaftesbury will be put on the auction block, including private houses, banks, post-offices, stores, offices, hotels and three saloons. The town is located in a picturesque part of Dorsetshire, perched on the top of a hill in the midst of rolling farmland. The nearest railway station is three miles distant, at Semley.

Sales of great estates are frequent in these days, when taxes are eating up profits and many of the younger generation of the nobility are losing their lives on the battle fields. This is the first sale of an entire town which has been arranged.

HOG ISLAND YARD TO LAUNCH FIRST SHIP

Philadelphia, July.—Steel is now arriving at the government shipbuilding plant at Hog Island in adequate quantities, according to H. W. Blood, an engineer for the American International Corporation.

"The fabricators of steel parts for ships," Mr. Blood said, "are making good and the steel committee, recently appointed to see that the shipyards are stocked with steel parts, has done much toward the solution of the problem."

The Hog Island yard, the largest in the world, is preparing for its first launching on August 4. The ship is the Red Jacket. It is an 8,000 ton freighter. Two more 2,000 ton freight carriers are nearly half completed. The second launching is expected to take place a week after the Red Jacket leaves the ways. The third vessel will follow shortly after the second, and then it will be a week or ten days before there are further launchings. After that Hog Island expects to turn out completed hulls at the rate of two a week.

AGRICULTURAL COLONY ON MEXICAN ESTATES

Chihuahua City, Mexico, July.—General Francisco Murguía, commander of the northeastern military zone has started an agricultural colony on the great estates north of this city which were confiscated from General Luis Terrazas by General Villa in 1913. General Terrazas was the most wealthy land owner in Mexico, owning fifteen ranches, about two thirds of the state of Chihuahua, estimated at 5,000,000 acres. Before the revolution led by Villa, this property was estimated to be worth \$200,000.

When Villa was at the zenith of his power General Terrazas fled to the United States and Villa decreed the seizure and confiscation of his property, at the same time holding General Terrazas' son, Luis Jr., prisoner and demanding a ransom of \$200,000. While in the jail in Chihuahua City, the son was subjected to torture to compel him to reveal the plan in which Villa believed the Terrazas family had concealed \$500,000. Luis Terrazas, Jr., escaped to the United States and soon afterward died in Los Angeles.

General Murguía has established himself at Molinar station on the Mexican Central Railway and has brought from the south a train-load of former revolutionaries and other undesirable elements from Zacatecas and Torreón and has put them to work on the land. They are plowing a tract of 100,000 acres and a big crop is expected if they do not join Villa the next time his band passes near the colony.

PETITIONS FILED.

Springfield, Ill., July 22.—Primary petitions filed with the secretary of state today, exclusive of Cook county, were as follows:

Representative in Congress, Twentieth district, Henry T. Rainey, Carrollton, democrat; twenty-second district, A. B. Garrett, East St. Louis, democrat; and twenty-first district, James H. Graham, Springfield, democrat.

Representative General Assembly—Fifty-first district, T. A. Capelle, Carrier Mills, republican.

State Central Committee—Thirtieth district, Arthur M. Smith, Stockton, republican.

WINCHESTER LAD HURT BY PONY MONDAY NIGHT

Eleven Year Old Son of Mr. and Mrs. Charles Cooper Taken to Our Savior's Hospital, Suffering Severe Concussion of the Brain—Other Winchester News.

Winchester, July 22.—Edward Cooper, aged 11 years, the son of Mr. and Mrs. Charles Cooper, residing in the west part of town, was the victim of an accident late Monday evening and is now a patient at Our Savior's hospital in Jacksonville, suffering a severe concussion of the brain.

The child had been playing about the yard at his home during the evening and was seen riding his pony. Later he was found lying in the yard in a dazed, semi-conscious condition. When found he stated that he was not badly hurt, but it was evident that the pony had either kicked him or that he had suffered a severe injury to the head thru a fall from the animal. Drs. Eckman and Miner were called and were attending the little patient, when Dr. J. W. Hargrove, of Jacksonville, drove into the yard of Dr. Eckman, who resides next door to the Coopers. He was called in consultation and advised that the child be brought to Jacksonville, where a more thorough examination and possibly an X-ray picture could be made.

Dr. Baisley offered the use of his car and the sufferer was taken to Our Savior's hospital, where at a late hour last night Dr. Hargrove reported the boy to be in a serious condition. The injury was sustained to the back of the head. He was still reported to be in a semi-conscious condition.

Examine Registrants. The Scott county exemption board has been examining a number of registrants the past few days.

Saturday five men were called for re-examination. They are as follows:

William Boester, Otis Campbell, William E. Campbell and Fred Slagle, all referred to the medical advisory board, and Bruce Bursaw, accepted.

Monday the board examined a number of 1918 registrants, men who registered the 5th of last June. The result of these examinations are given herewith:

Accepted.

W. Leo Murphy, Henry L. Neese, Russell Hornbeck, Roy M. Merriman, Guy R. Overton, Jas. Angelo, Clarence H. Reuter, Oscar L. Glossop, Herman B. Workman, Russell S. Wolford, Chester L. Neat, Carl E. Roberts, William R. Jefferson, William H. Rolf, Luther C. Coultas, Fred S. Quinn, Le Roy Barnett, Albert L. Mitchell, Milt S. Lettice, Clarence L. Cox, Benjamin N. Placke, L. Edwin Kirkpatrick, Allen G. McCullough, Irvin Bentley, R. O. Bullock, Forest Cook, Russell R. Gibbs and Arthur Huseman.

Referred to Medical Advisory Board.

Russell McCarty, Samuel W. Dolan, Paul E. Markillie and Andrew A. Williams.

Rejected.

William L. Blackburn, Joseph B. Drummond and Everett L. Lawson.

News Notes.

Mrs. Wallace Hart, of Naples, is visiting her mother, Mr. Samuel Cohen.

Dan T. Smith, T. D. Smith, Joseph Grover, Dr. J. W. Eckman, accompanied Samuel G. Smith to St. Louis Sunday afternoon in Mr. Grou's car. Mr. S. G. Smith there entered the United States naval service. The others of the party returned home Sunday evening.

Guy Overton has returned to Winchester from Yuma, Colo.

Mrs. Charles Vogel has returned to her home in St. Louis, after a visit at the home of Mr. and Mrs. Thomas Kirwan and other relatives.

Mr. and Mrs. Chester Neat returned Sunday from Canton, where they visited at the home of Mr. and Mrs. Ray Fortenback. Their daughter, accompanied them, home in the Neat car, for a short visit.

Mr. and Mrs. Albert Hainsworth went to St. Louis Monday afternoon on a business and pleasure trip.

The local board here recently caused the arrest of Lucien D. Sheppard, who has been employed in this vicinity as farm hand for several months, on the charge of being a draft law evader. On receipt of a letter from Mrs. Sheppard, at Shannon, Miss., that she and four children were legally dependent upon him for support, he was released from custody. He left for his former home in Mississippi.

Mrs. Leonard Violet and son, of Parsons, Kansas, are visiting with her father, Edward King, and other relatives.

Miss Ella Boylan and Miss Mae Boylan, of Jacksonville, arrived Sunday afternoon for a visit at the home of Mrs. Martha Faul.

Mrs. W. H. Kinson arrived home Monday afternoon, after a few days' visit in Jacksonville.

Verlin Summers returned Sunday morning to Camp Sherman, Chillicothe, Ohio, after spending a short furlough with relatives here.

EXECUTIVE CLEMENCY

Washington, July 22.—Executive clemency, it was announced today has been extended in the case of First Lieutenant Millard M. Green of the engineers reserve corps, who was sentenced to be dismissed from the army and confined at hard labor for five years for bigamy.

President Wilson approved the verdict but eliminated the imprisonment term from the sentence.

LOS ANGELES WINS PENNANT

Los Angeles, Cal., July 22.—Los Angeles won the Pacific Coast baseball league championship today by defeating the Vernon team and taking five of the post-season championship series games.

Vernon won only two of the series.

Social Events

Enjoys Picnic Supper.

The Queens of Avalon Club of Centenary Church went to Nichols Park Monday evening where they enjoyed a picnic supper and spent the evening in playing tennis.

Literberry People Enjoy Springfield Dinner.

A party of young people from Literberry neighborhood journeyed to Springfield Sunday morning, taking with them an abundance of good things to eat. At twelve o'clock lunch was spread at Lincoln Park and dinner enjoyed by all those in the party, which was composed of the following: Lela and Marybelle Maul, Hazel Bishop, Gertrude Sorrells and Ray and Roy Maul.

JACKSONVILLE, R. 1

Mr. and Mrs. George W. Hardwick are entertaining Mr. R. W. Simpson and sons Robert and George Wood of Peoria, and Miss Katie Huddleston of Winchester this week.

W. D. Hitt Sr. and wife and Mrs. W. S. Howell were week end visitors in Little Indian, guests of W. D. Hitt Jr. and family.

Miss Grace Gibson spent Sunday in Jacksonville visiting friends.

Mrs. Mary Gordon Wolke visited her parents, Mr. and Mrs. William Gordon on her way to South Carolina where her husband is in the training camp and expects to sail soon.

Mr. and Mrs. Leonard Branson of White Hall were Sunday guests at the home of E. M. Chrisman.

The Committee of the Women's Council of National Defense of this precinct raised their quota which was \$50.00, going over the top.

The Ladies are kept busy at the Red Cross shop making garments for refugee women in Belgium and France, also pajamas for the convalescent soldiers in our hospitals across the sea. Three machines are at their disposal and they are kept humming every Wednesday afternoon.

Mr. and Mrs. Henry Korty visited the family of John Porter Sunday.

Mert Morris was a business caller in Jacksonville Thursday.

MOTORWOMEN HAVE ARRIVED IN LONDON.

London, July.—"Motorwomen" have arrived in London at last. In the provinces, notably in Glasgow, women have been on the front end of tramway cars for several years, but in London some of the city officials objected to them, the scarcity of men, however, has increased to such an extent that these objections were finally overcome.

The first women to actually run tramway cars appeared in the borough of Waltham a few days ago, and it is the intention of the tramway company officials to hire more women as rapidly as they can be trained. They are to receive the same wages as the men.

IRISH BIRTH RATE SHOWS DECLINE.

Dublin, June.—The Irish registrar's general's return for the first quarter of this year shows a drop in the Irish birth rate of 3.6 below the average for the previous ten years. The marriage rate is practically stationary. The death rate is 3.3 below the average.

The general prosperity of Ireland is reflected by the fact that the returns on Irish pauperism shows a decrease of 3.122 in the average number of work house inmates.

WILL MEET FRIDAY

The Friday Social circle will meet with Mrs. James Stout on West North street Friday afternoon at 3 o'clock to do Red Cross work.

NOTICE

All members of the Colored Men's Service committee are requested to meet Tuesday evening at Easley & Co.'s store at 8:30.

N. H. Parish, Sec.

WITH THE SICK

Andrew Ingram of 823 South Clay avenue is seriously ill with pneumonia. Mrs. Ivan Ingram at Camp Leland, Texas, is expected to arrive at his father's bedside tonight.

Mrs. George Sargent who has been seriously ill at her home on South East street is reported as slightly improved.

MATRIMONIAL

McClure-Robinson.

R. V. McClure of Glendive, Montana, and Miss Pearl Robinson, of the Prentice neighborhood, were united in marriage by Rev. Samuel M. Gibson, pastor of the Fourth Presbyterian church, Chicago, recently. The bride is the daughter of Mr. and Mrs. M. L. Robinson, of the Prentice neighborhood, and is well and favorably known in the county.

GOOD WHEAT YIELD ON BROWN FARM

A good yield of wheat was made on the 40 acres of land on the Brown farm just east of Jacksonville which is operated by Samuel Nunes and J. E. Pires as executors. The wheat was threshed recently and averaged well over 40 bushels and is of good quality.

ALL DAY SEWING

The ladies of Grace church will have an all day sewing at the church Wednesday.

RELATIVES AND FRIENDS WHO ASSISTED US SO KINDLY DURING OUR RECENT RECOVERY; ALSO FOR THE MANY BEAUTIFUL FLOWERS.

Dr. and Mrs. A. E. Obermeyer.

DEATHS

Decker.

Mrs. William Decker of Concord died at the home of her daughter, Mrs. William Laughary Sunday evening at eight o'clock.

Mrs. Decker has been in failing health for some time but it was not regarded as seriously until the last few days before her death. She was born in Pike county, September 2, 1843, and was married to William Decker in 1862. All her married life she has lived in the neighborhood of Concord. She is survived by her husband, one son and two daughters, William Decker Jr., Mrs. Sidney Smith and Mrs. William Laughary, all of Concord.

The funeral will be held from M. P. church of Concord this afternoon at three o'clock in charge of Rev. Fairchild assisted by Rev. Symon. The burial will be in the Concord cemetery.

BIRTH RECORD

Born Saturday at Our Savior's hospital to Mr. and Mrs. Edward Cox of East Chambers street, an eight pound son.

CARD OF THANKS

We wish to thank the many relatives and friends who assisted us so kindly during our recent recovery; also for the many beautiful flowers.

Dr. and Mrs. A. E. Obermeyer.

DO YOU WANT TO BUY A FARM?

A few of the many that I have for sale: 24 acres \$3,000; 55 acres \$16,500; 120 acres \$135 per acre; 200 acres at \$200 per acre; 170 acres \$225 per a. Some bargains in city property: 7 room modern house on paved street. A little money will handle it. A five room bungalow and 5 room cottage. A big lot of houses to select from.

Takes Double Header Boston, July 22.—Boston shutout Detroit twice today. In the first game Bush had the better of James in a pitching duel. In the tenth, with none out, Bush walked and took third on Hooper's single to right. Walker's bad throw enabling Bush to score with the only run of the game. Mays held the visitors to four hits in the second game, which Boston won 3 to 0. Kallio's wildness in the first resulted in one run.

Scott's single, a sacrifice hit and errors by Stange and Owen Bush accounted for two runs in the second inning.

He Removed the Danger Signal Frank W. Sherman, Laconia, N. Y., writes: "I suffered with kidney trouble, had a tired feeling in my back, did not have any ambition and felt all tired out. I used Foley Kidney Pills and in a few days began to feel better, and now I have entirely recovered and have had no return of my painful symptoms."

One cannot help becoming nervous and feeling tired and worn out when the kidneys fail to filter and throw out of the system the poisonous waste matter that causes kidney troubles and bladder ailments. Backache is one of Nature's danger signals that the kidneys are clogged by rheumatism, annoying bladder or urinary disorders, puffy swellings under the eyes, swollen ankles and painful joints.

Foley Kidney Pills get right at the source of trouble. They invigorate the kidneys to healthy action and when the kidneys properly perform their functions the poisonous waste matter is eliminated from the system.

INDEPENDENTS LOSE GAME TO MERCHANTS

Hand Game to Visitors After Having It Packed in Ice—Locals Blow Up in Eighth and Six Runs are Counted Off of Three Singles.

After having the game packed away in ice up to the eighth inning the Indies blew up in that session and allowed the visitors to score six runs off of three singles. Up to that time the score was 4 to 0 in favor of the Indies and everybody was getting ready to cash their bets.

The game was a good exhibition for three innings the both teams did some weird playing. However, Kitchin and Hartman had the situation well in hand and no scoring took place until the fourth.

Perhaps the best play of the afternoon was when Kane, the visitors short stop, stopped a ball with his jaw. The ball glanced into the second baseman's hands and completed a double play. This happened in the ninth with two men on the sacks and probably saved the game for the visitors.

How the Runs Were Made The Indies broke the ice in the fourth. DeSilva walked and took third on Kitchin's single. Kitchin stole second and both runners scored on Denny's hot single thru the pitcher. A wild throw of Beerup's boulder by Foss, DeSilva's sacrifice and Kitchin's second single scored one in the sixth. Christopher's single and an error by Casey allowed one to come across in the seventh.

Up to this time Kitchin had been going like Walter Johnson at his best. Two lonely singles was the sum total of the visitors' efforts in the hitting line up to that time. Then the aeroplane broke a propeller and came down with a crash. After Kane was out Hartman singled and stole second, and continued to third when Beerup's throw went to center. Heffron walked and stole second. Both runners scored on Brennan's single to right. Grennan stole second. Foss was safe on Ruble's error and Brennan scored. Foss went to second on Dunbar's single and scored when it got away from Gillis. Dunbar took second on the error and third on the throw to the plate. He scored on a fielder's choice. Richards was safe on a fielder's choice, took second on Denny's error, stole third and scored when DeFratres fooled Kieble's hit.

The Indies added one in their half of the eighth on two singles and a fielder's choice. The merchant's got it back in their half of the ninth on a base on balls, a single and an error by O. Smith. The Indies made a dying try in the ninth. DeFratres opened with a double to left and scored on Ruble's single to short. Christopher hit to Foss and all hands were safe when Kane dropped the toss. However, Kane then pulled his famous play of letting the ball hit him on the jaw and carrom off to Foss, and Christopher and Kane, DeFratres both dead. Gillis ended the agony by striking out. The score:

Merchants: AB. R. H. O. A. E. Hoffron, cf. 4 1 0 0 0 0 Brennan, c. 4 2 1 7 2 0 Foss, ss. 2b. 5 1 1 3 5 2 Dunham, 3b. 5 1 2 1 5 0 Richards, 1b. 3 1 0 10 0 0 Casey, lf. 4 0 0 0 1 1 Kieble, rf. 4 0 1 1 0 0 Kane, 2b. 3 0 0 3 2 2 Hartman, p. 4 1 1 2 4 0

PLANS PROGRESSING FOR ENLARGING PARK

Commissioners are Securing Options on Property to Extend White Hall Park—Other News of Interest from White Hall and Vicinity.

White Hall, July 22.—The board of commissioners of White-side Park are securing options on property adjoining the present park in order that the boundaries may be extended to embrace all the square with the exception of the brick business buildings between Sherman street and the Stock hotel. These moves are being made following a visit and conference with Mr. and Mrs. S. N. Griswold by Mayor Boehm, the park board and Attorney Winn. This conference was held at the Griswold home, and those who may have been skeptical as to the wishes and willingness of Mr. and Mrs. S. N. Griswold concerning the future of the park may be at once undeceived. The Griswolds as the original donors of the park to the city have been quoted as desirous of having the park extended to embrace all the undesirable property surrounding it, and as a result of the conference during the past week it is disclosed that the Griswolds have been correctly quoted, and that they are ready to go further with their benefaction at the opportunity which seems to have arrived with reorganization of the park board. Should the negotiations for the purchase of the property at a fair price fail, the city council at the next meeting will take steps to condemn it for park purposes. Mr. and Mrs. Griswold have a fair idea of what the needed property is worth, and they do not propose to go beyond this figure in acquiring it for the public good. The greatest contemplated improvement to follow the extension measures is the expressed desire of Mr. and Mrs. Griswold to erect a fine library building and public rest room for the accommodation of the growing White Hall township library. This is the most gratifying announcement that has yet been made in connection with the civic benefactions of Mr. and Mrs. S. N. Griswold. The park board consists of T. J. Grant, president; R. B. Pearce, secretary; M. Lowenstein. They will at once extend the lighting and seating facilities and make some needed improvements on the grounds.

Benefactions are Large.

The benefactions of Mr. and Mrs. S. N. Griswold in the purchase and improvement of White-side Park up to the present time represent an outlay of probably \$12,000, and \$3,000 additional have been decided on the extension and improvement now contemplated. With the erection of a permanent home for the library and a new archway at the Sherman street entrance and other improvements, the benefactions of Mr. and Mrs. Griswold will not have fallen far behind those of Charles W. Fairbanks, former vice president, who has bequeathed \$50,000 to his home city of Indianapolis, which act has been heralded nationally, while those of Mr. and Mrs. Griswold for their home city of White Hall have been given little more than local attention. The Fairbanks bequest is used as comparison primarily because of the local interest in the Fairbanks family. W. D. Fairbanks, a brother of the Indianapolis benefactor, is a neighbor of the Griswolds in White Hall, and the two families are exceedingly friendly and neighborly. Mr. Fairbanks regarding the philanthropic activities of Mr. and Mrs. Griswold has come to his notice, more especially in behalf of a town of the size of White Hall.

Personal Mention.

Miss Mina Brantzel and Mrs. Clarence Brantzel and two daughters are here from Davenport, Iowa. Mrs. Brantzel was formerly Miss Ella Raines of White Hall.

Private Charles L. Jones, who is in detached service, military police, and stationed at San Antonio, Texas, spent a few days of last week in White Hall. His father is now located at Carrollton.

The White Hall Boy Scouts, under the direction of Rev. E. C. Lucas, will leave Tuesday morning on a hike to Hillview, nine miles west, where they will go into camp for two days, and then hike back to White Hall Thursday evening.

Willard Pembroke arrived last week from Brooklyn to visit his sister, Mrs. Herbert Dugger, until the latter part of the present week. Pembroke was a seaman on the Chur, which was sunk a few weeks ago off Cape Lookout by being rammed by the tanker Florida. The boats were carrying no lights on account of the U-boat scare at that time. The accident occurred on Saturday morning early, and Pembroke and all on board the Chur made their escape, but did not succeed in landing until the following Tuesday at Brooklyn, from where he wired of his escape to his folks, which was published in these columns. Pembroke does not understand why the accident did not get general circulation in the papers.

T. P. Bates was up from St. Louis to spend Sunday with his mother, Mrs. Mary Bates.

The most attractive war display in the city is that in the window of Nevius & Davis in the form of a map of the war zone laid in sand, the various countries being set off in colors. A white string represents the battle lines on July 17th, the date of the Allied counter offensive, and a black string is used to daily locate the fluctuating battle lines. The map is affording a ready and quick grasp of the situation to the hundreds of passers. It occupies almost all the spacious show window, showing England, France, Holland, Belgium, Germany, Switzerland and Italy, together with the River Marne and the important strategic points and towns. The map is the conception of A. M. Nevius, and his ideas were carried out by George E. Bell.

A party of Burlington railroad officials were here Friday to confer with any one desiring to enter the railroad service. Their coming had been announced by poster advertisements, and they met a number of prospective employees here. They have been going over the entire system on this mission with most gratifying results. The military draft has been a serious drain on the railroad working forces in all departments.

W. C. Springgate has been summoned from Oshkosh, Wis., on account of the serious condition of his mother, Mrs. J. J. Wilkinson.

Waverly News OF INTEREST

Local Items from Waverly and the Southeast Part of the County.

Waverly, Ill., July 22.—Misses Ethel Carter and Vincent Spaenhower returned from a visit of several weeks at the home of their aunt, Mrs. Ethel Stowell in Arkansas.

George Duerwer, son of Mr. and Mrs. Fred Duerwer went to Springfield Monday where he will undergo an operation at Springfield hospital for relief from appendicitis.

Mrs. Steven Kennedy of Beardstown is visiting among relatives here.

Everet Henry of Peoria is visiting at the home of relatives here.

Dr. Paul Allyn of Camp Bowle, Fort Worth, Texas, and who was recently commissioned a captain is home on a furlough.

Hugo Allyn of the aviation field at Rantoul spent Saturday and Sunday visiting his father, C. F. Allyn.

Mr. and Mrs. Ralph DeLong and Mrs. James DeLong and daughter, Miss Helen went to Springfield Sunday to visit at the home of Mr. and Mrs. John Henninger.

Miss Helen Kennedy left Saturday for a two weeks outing at Lake Geneva.

BIDS FOR COAL

Sealed bids for furnishing 3-inch screened lump coal for all county purposes for one year, will be received at the office of the county clerk until Saturday, July 27, at 11:00 a. m.

All coal to be weighed over the city scales except that delivered at the County Farm, which is to be weighed at the farm.

The successful bidder must enter into a contract and give bond for the faithful performance of the same. The County Board of Commissioners reserve the right to reject any and all bids.

Dated this fifteenth day of July, A. D. 1918.

C. A. Boruff, County Clerk.

It is quite some performance on the part of Thormahlen, the Yankees' kid hurler, to top the list of American league pitchers after only a few months of big yard pastime.

The National is gradually falling behind the American league in the matter of 300 hitters. Recent averages show 13 heavy swatters in the American and 10 in the National league.

TRAINED NURSE ADVISES PEOPLE

"I was a great sufferer of stomach and liver trouble and cannot say enough in praise of Mayr's Wonderful Remedy. It has done so much for me and I am recommending it to other sufferers. I was a trained nurse in Marine and other hospitals years ago, therefore many come to me for advice. I certainly received great benefit from Mayr's Wonderful Remedy." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including constipation, indigestion, flatulence, etc.

Children Cry for Fletcher's CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of

Dr. H. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulence, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS Bears the Signature of

LIEUT. M'GINNIS HERE FROM SCOTT FIELD

Jacksonville Soldier is Now an Instructor in Aviation—Talks of the Work.

Second Lieut. Harold McGinnis is here from Scott field, near Belleville, for a furlough visit of eight or nine days. Lieut. McGinnis is now an instructor in aviation at Scott field, a fact which furnishes the best evidence of the very successful work he has done in the aviation department since his enlistment.

The men in the army who take up this work first pass thru a six or eight weeks' course of study in the science of aviation. They study about air currents and other conditions about which they must have an acquired knowledge before there can come any success in their after work. There must be also an understanding of the mechanism of an air machine, after an idea of the principles which control it has been acquired. An instructor has a number of cadets under his supervision and usually in the initial lessons the cadet accompanies the instructor in the observer's seat of the aeroplane and in this way has a direct chance to observe the operation of the propelling machinery.

"Stunts" Have Purpose. After the cadet is able to fly then comes a course in difficult "stunts" with the double purpose of doing away with any timidity and also in training the "fledgling" aviator so that he can the better manipulate his machine in times of conflict, either for the purpose of escape or of attack.

The aviator must also learn the operation of the machine gun that is a part of his aeroplane or the discharge of any other firing equipment which may be attached. There are several different types of flying machines and the "artillery" varies also.

It should have been stated before that the training of an aviator also embodies in the early days regular periods of drill. As in other departments of the army, the time of the student aviator is fully occupied and when the course of training has been finished he is in fine physical condition. Men who fly are greatly enamored with their part of the army service. After they have qualified the fear of accident is gone and to sail away into the air is a real matter of pleasure.

Most Accidents Near Ground. Lieut. McGinnis said yesterday that the most difficult matter with reference to the whole proposition is that of alighting, and that when an aviator has learned this lesson well that the danger of accident has been vastly reduced. If a man who understands the principles of aviation is given a machine in good working order the danger is not nearly so great as seems at first thought. It is a fact, according to Lieut. McGinnis, that the great majority of accidents recorded have happened when aviators were flying low.

As already stated, Lieut. McGinnis will be in Jacksonville for a week or more to visit friends and relatives.

IS VISITOR HERE.

Rev. and Mrs. James E. Baker and daughter Miss Lois of Urbana arrived in the city yesterday and are guests of Dr. and Mrs. F. B. Madden of West State street. Dr. Baker will go to Perry today, where he will address a Methodist gathering and then return here for a longer visit. He is pastor of Trinity M. E. church in Urbana. The trip from that city to Jacksonville was made by automobile but Dr. Baker will make the trip to Perry by train to Griggsville and thence to Perry by automobile.

Mr. and Mrs. Will Clardy of Topeka, Kans., are guests at the home of Mr. and Mrs. J. J. Crouch on Finley street. Mr. Clardy is a brother of Mrs. Crouch.

H. G. Kepling, well known banker of Franklin, was a business visitor in the city Monday. J. Ray Mullin of Keokuk, Ia., spent Sunday in the city visiting friends.

ISSUE INVITATIONS. Mr. and Mrs. Robert P. Allan of Riggs have issued invitations to a reception to be given at their home Thursday evening, July 25th, in honor of Mr. and Mrs. Clifford B. Allan, who were recently married.

BOYS' WORKING RESERVE ACTIVE

More Than 18,000 Boys Helped With Work on Farms—Good Record Explained By H. F. Scott.

Prof. H. F. Scott, formerly of this city and now of the faculty of the high school of Chicago University was a visitor in Jacksonville Sunday and Monday. Prof. Scott is using his vacation period for duties in connection with the Boys' Working Reserve of the state. While the movement has not been greatly emphasized in Morgan county, in other parts of the state the Working Reserve has had much to do with satisfactory solution of farm labor problems. The records on file show that about 18,000 boys, mainly from the high schools in the state, were placed on farms to in some measure take the places of the agricultural workers called into war service. It was a part of the purpose of the Boys' Working Reserve management, which is operated under the state council of defense, to provide workers for this year and also to have boys in training for next year, when the need will be greater if the war continues.

The reason the movement was not pushed to a greater extent in this county is due to J. S. Findley as chairman of the committee, was because the need for agricultural workers was not as great in this county as in some parts of the state. The local board here made a strenuous effort all thru the past months to keep as many agricultural workers here as possible, with the result that conditions on the farms have not been disturbed to nearly as great an extent as has been true elsewhere.

Looking for Data. Mr. Scott's mission down state just now is to visit a number of counties and gather data which may be of service in planning the work for next year. The purpose of this trip is to find any especially good points developed in the different communities and also to learn any objections which have been made. Mr. Scott has found in practically all the counties where boys were placed that the farmers were well pleased with the work done and are wholly in sympathy with the movement. In many cases when the plan was first proposed farmers were very skeptical about the benefit which might accrue, as they did not believe that "city boys" would prove of any real value on the farm.

RETURNS FROM EAST

William T. Wilson returned last night from Stockbridge, Mass., where he has been for nearly three weeks past. He was accompanied by Mrs. Wilson, who has been in Chicago for several days. While in the east Mr. Wilson was at the farm home which his brother, Hugh M. Wilson of New York City, has recently acquired. It is a tract in the course of development and is located in a mountainous district of that historic state.

SUGAR NOTICE. Inasmuch as there is a very serious sugar shortage a new rule is today in effect on sugar.

No retail grocer can sell any except to his regular trade. In other words, more care must be exercised in acceptance of sugar orders.

In regard to canning, no amount larger than ten pounds can be sold and that only as authorized by local or county food administrator.

New stores established after July 15th will receive no sugar allotments or new jobbers or wholesalers beginning business after July 1st will be given license or certificates.

M. F. Dunlap, Food Administrator.

PROBATE COURT.

In the estate of Henry W. Muehlhausen, letters of administration were ordered to issue to Henry Muehlhausen and bond fixed in the sum of \$100.

In the guardianship of Coral and Opal Redfern, the report of the guardian was approved.

In the guardianship of George R. Flinn et al., the report was approved and George R. and James Flinn discharged.

MRS. LEY HAS MANY SONS IN COUNTRY'S SERVICE

Wears Gold Stars for Three that Have Made Supreme Sacrifice—Now Seeking Funds for Army and Navy Hospital.

Mrs. Charles W. Ley of Alaska, who is now residing in St. Louis and is traveling under the direction of the Navy recruiting office, spoke from the front steps of the Farrell bank building last evening to an attentive audience. Mrs. Ley is the mother of seven sons has an adopted son—all of whom joined the United States army.

Three of the sons have been killed, two of them on the Corsican which was torpedoed by a submarine and the other in the airplane service. Mrs. Ley is now wearing three gold stars in honor of these boys along with five blue stars for those fighting on the battle fields of France.

While in France one of her son who was killed wrote a song entitled "The Ocean Must Be Free." The soldier lad did not have the opportunity to publish the music, and just recently the captain of his company sent the manuscript to Mrs. Ley who has since had it published and is offering it for sale to the public. The proceeds are to be used in constructing a hospital for the boys of the army and navy and a home for them in St. Louis. Already the ground has been laid out for the construction of the buildings. Each one is expected to cost within the neighborhood of \$50,000. Mrs. Ley who has been head of a hospital in Alaska realizes the need of homes for the boys when they return and it is in this way that she is using the money secured from the song.

Mrs. Ley is traveling over the southern part of Illinois and Indiana in this campaign. She has several assistants thruout the other portions of the central states helping her in the work. Already over \$9,000 has been secured thru the sale of the song.

RURAL CARRIER EXAMINATION.

The United States Civil Service commission has announced an examination for the county of Morgan, Illinois, to be held at Jacksonville, Ill., on Aug. 10, 1918, to fill the position of rural carrier at Alexander, Ill., and vacancies that may later occur on rural routes from other postoffices in the above mentioned county. The examination will be open only to male citizens who are actually domiciled in the territory of a postoffice in the county and who meet the other requirements set forth in Form No. 1977. This form and application blanks may be obtained from the offices mentioned above or from the United States Civil Service commission at Washington, D. C. Applications should be forwarded to the commission at Washington at the earliest practicable date.

During the continuance of the present war the commission will, in accordance with the request of the postoffice department, admit women to take civil service examinations upon the same conditions as men.

John A. McIlhenny, President.

IOWA MAN VISITS BROTHER

Dave Gard of Des Moines, Ia., arrived in Jacksonville Sunday evening for a short visit with his brother, G. W. Gard of South East street, whom he had not seen for twenty-one years. Mr. Gard is a bridge builder of wide reputation, his work having taken him to every state in the Union, three times to South America and once to Australia. He is now on his way to Nashville, Tenn., to take up government work, the nature of which he is not allowed to disclose.

LEAVES FOR SOUTHERN ILLINOIS.

Dr. and Mrs. A. L. Adams who accompanied Mr. and Mrs. C. A. Johnson on their trip to Michigan returned home Monday morning after spending a few days in Chicago and then left last evening for a trip to points in southern Illinois.

USEFUL LIFE OF MISS ELLEN MAPES ENDED

Passes Away Sunday Morning At Home On South Church Street—Facts of Miss Mapes' Life Prepared By Capt. Taylor.

Miss Ellen Mapes, known favorably to a great many Jacksonville people, died Sunday morning at her home, 216 South Church street. There were many people who had known members of Miss Mapes' household thru a period of years and they, along with others, had come to regard her with real affection. The following facts about Miss Mapes' life were prepared by Capt. F. C. Taylor, long time friend of the family:

Miss Mapes was a daughter of the late Ira and Harriet (Williams) Mapes, and was born at the family homestead north of this city, April 18, 1850. Her education was obtained at the public schools and at the Presbyterian academy in this city. For many years she was an attendant upon the services at the Trinity Episcopal church, but some years since she became interested in the principles of Christian Science and became a firm believer in its teachings and doctrines. Realizing the uncertainty of life, she several months since placed her house in order and was prepared to answer the summons when it came.

Miss Mapes was never married, preferring to live at home and care for her parents and keep the family together.

A number of years ago she moved into her late home and began the furnishing of meals for a few families in the immediate vicinity, but her popularity became such that her tables were soon filled to capacity.

It is believed that too close confinement at home without needed rest and over attention to domestic duties was too much for her strength. Day by day she grew less able to attend her work and took to her bed a week ago. Every attention that loving hands could bestow was given her. She realized her condition and remained conscious up to a few moments previous to her demise. She quietly fell asleep to awaken, as she believed, in a home prepared for her in the Better Land.

When the end came there were at her bedside her sister, Mrs. Higgins, brother Landon, of this city, her brother, Harlan Mapes, of Kansas; her sister-in-law, Mrs. Marilla Mapes, of Jacksonville; and her nieces, Miss Iva Mason of Berkeley, Cal., and Mrs. Robert Coe, of Waverly, Ill. Miss Mapes is survived by her brother and sister, of this city; by her brothers, Stephen, of Higginsville, Mo.; J. Hardin Mapes, of Salina, Kansas, and by a number of nieces and nephews residing in this community and elsewhere. Of her immediate family those who preceded her to the spirit world were her parents, her sisters, Mrs. Emily Mapes Walker, Mrs. Mapes Mason, Mrs. Susan Mapes Holmes and her brothers, Mahlon, Darius and Ira Mapes. Her mother, a sister-in-law, a sister-in-law and herself all passed away on Sunday.

Miss Mapes was greatly beloved by all who knew her, and one who had known her for many years summed up her good qualities when he said: "She was a mother to all of us and will be greatly missed. Of her it may well be said, 'She hath done what she could.'"

Funeral services will be held at 3:00 o'clock this afternoon at the late residence, 216 South Church street, and will be conducted by Rev. W. E. Spoonst, pastor of Northminster church.

Interment will be made in the family burial lot in Diamond Grove cemetery.

FRANKLIN INDEES WON FROM CENTENNIALS.

The Franklin Independents won a fast game from the Centennials of Springfield at Franklin Sunday afternoon. The final score was 2 to 1 in favor of the Independents.

Seymour and Dove were the opposing pitchers and each struck out ten men. The Franklin team scored one run in the second on W. Teaney's triple and Brown's single. The Centennials tied the score in the third. In the eighth the Indies made the winning run on Harbor's single and stolen base and Gorman's single.

The feature of the game was the work of Snow of Franklin in right field. He made two brilliant catches and on one saved the game for his team by a great pee to the plate, cutting off a run. The batteries were: Centennials, Dove and Grady; Indies, Seymour and Harbor.

Score by innings:
Independents 0 1 0 0 0 0 1 x—2
Centennials . . . 0 0 1 0 0 0 0—1

MISS MINTER OF WADDELL'S, LEAVES EARLY THIS WEEK FOR THE NEW YORK MARKETS WHERE SHE WILL PLACE ORDERS FOR THE NEW FALL STYLES IN COATS, SUITS, DRESSES, FURS AND MILLINERY.

GREW SOME FINE LILIES. On Easter Sunday, George W. Scott and G. Roy Scott gave their wives each an Easter lily. After the plants had apparently died, Mrs. G. W. Scott set the stems out. Much to the surprise of everyone they grew and now have lilies much better than those on the original plants.

IS NOW OVERSEAS. Mrs. George Hoover of East College street has received a card announcing the safe arrival of her son Hal Hoover in France. He is with the 50th Engineers and first went into training at Camp Dodge, Des Moines, Iowa.

CITY COUNCIL IN BRIEF SESSION MONDAY

No Extensive Department Reports at Regular Session Monday Morning—South Main Street Paving to Proceed Rapidly.

The meeting of the city council Monday morning was very brief. There were no extensive department reports and the session lasted only a very few minutes. A report was read from the Hartford Boiler Insurance Co. making certain recommendations about boilers Nos. 1 and 2 at the south plant. Mayor Rodgers stated that the paving on the street car track on South Main street had been finished. This was made possible by petition of the property owners, who were willing to waive the type of paving called for in the specification. The paving of the street proper will now speedily proceed, the purpose being to pave one side of the street at one time, leaving the other open for traffic.

Commissioner Martin made mention of the fire at the Woman's college boiler house Sunday morning, which but for early discovery and efficient work would have developed into a serious fire loss. Commissioner Cox reported the usual work being done in his department and that the culvert on Sharp street had been replaced. Complaint was made of the obstructed condition of traffic on Anna street because of the cinders piled there by the Jacksonville Railway and Light Co. A first reading was given of an ordinance which prohibits the distribution of samples of patent medicines. The measure provides a fine of \$25 for violation. The text of this ordinance is as follows:

Be it ordained by the City Council of the city of Jacksonville, Ill., that no person or persons, shall distribute, cast, throw or place in upon or along any of the streets, alleys, private property of others, or public places of the city, any medicines, patent, or other such, or samples of such medicines.

Section 2. Any person, persons, or corporation violating this ordinance shall be fined not less than \$25, nor more than \$200 for each offense.

Section 3. This ordinance shall be in full force and effect from and after its passage and publication.

NOTICE

Mr. Johnston will be out of the city this afternoon and the Johnston Agency will not be open later than 2 o'clock.

IS OVER THERE. Mrs. Katherine Devlin, 532 East College avenue, received word yesterday that her son, Charles Devlin, had arrived safely overseas.

GAVE FISH FRY.

Mrs. Rose Jackson gave a fish fry at her home on South Mainvalsterre street, recently, for the benefit of her sister, Miss Nellie Earley.
